This sale and assignment extends to the patents listed in Exhibit A and any related substitute, refile, divisional, or continuation applications filed in the United States and elsewhere; any subsequent patent applications filed in the United States or elsewhere claiming the benefit of priority to these or any of the applications for patents or patents in Exhibit A; any patents issuing out of any of the aforementioned applications, and any reissues or extensions of such patents; and any other patent applications or patents relating to the inventions set forth in the applications and patents identified in Exhibit A.
