WHEREAS, Assignors' work within the Centre National de la Recherche Scientifique ("CNRS") has led to the filing of patent applications in the names of CNRS and the Universite de Montpellier (collectively refer to the "Institutions") as shown in Exhibit I (herein collectively referred to as "Patents");

WHEREAS, the Institutions and Mr. Gilles Divita have entered into an agreement whereby, as of the effective date of August 7, 2015, Mr. Divita became the full owner of the Patents by way of assignment;

WHEREAS, on August 19, 2015, Mr. Divita assigned the entire right, title and interest in and to the Patents to Assignee;

NOW THEREFORE, for payment of USD \$10 and other good and valuable consideration, the receipt of which is hereby acknowledged, Assignors and Assignee hereby acknowledge and agree as follows:

1. Assignors have sold, assigned, conveyed, and transferred unto Assignee, through CNRS, Assignors' entire right, title and interest in and to the Patents, and any and all letters patent or patents in the United States of America and all foreign countries which may be granted therefor and thereon, and in and to any and all divisions, continuations and continuations-in-part of said application, or reissues or extensions of said letters patent or patents, and all rights under the International Convention for the Protection of Industrial Property, the same to be held and enjoyed by said Assignee (including any right to institute actions and to recover for past, present and future infringement), for its own use and the use of its successors, legal representatives and assigns, to the full end of the term or terms for which letters patent or patents may be granted.

2. Assignors hereby sell, assign, convey, and transfer unto Assignee, Assignors' remaining right, title and interest, *if any*, in and to the Patents, and any and all letters patent or patents in the United States of America and all foreign countries which may be granted therefor and thereon, and in and to any and all divisions, continuations and continuations-in-part of said application, or reissues or extensions of said letters patent or patents, and all rights under the International Convention for the Protection of Industrial Property, the same to be held and enjoyed by said Assignee (including any right to institute actions and to recover for past, present and future infringement), for its own use and the use of its successors, legal representatives and assigns, to the full end of the term or terms for which letters patent or patents may be granted.

3. Assignors hereby covenant to, and agree with, said Assignee, its successors, legal representatives and assigns, that said Assignors will, whenever counsel of said Assignee, or the counsel of its successor, legal representatives and assigns, shall advise that, in connection with any proceeding concerning said Patents, or in connection with any proceeding concerning letters patent granted thereon in any country, including interference proceedings, or any division, continuation or continuation-in-part of any application for letters patent or any reissue or extension of any letters patent, to be obtained thereon, it is desirable, sign, execute and deliver all papers and documents, take all lawful oaths, and do all acts necessary or required to be done for the procurement, maintenance, enforcement and defense of letters patent for said Patents, without charge to said Assignee, its successors, legal representatives and assigns, but at the cost and expense of said Assignee, its successors, legal representatives and assigns.
