ASSIGNMENT

WHEREAS, WE, EUGENE F. KEOHANE, of 355 Orchard Road, Springfield, Pennsylvania 19064, and JOSEPH DIAZ, of 59 Pine Grove Road, Nottingham, Pennsylvania 19362, have invented certain new and useful improvements in a POSITION SENSOR ASSEMBLY, for which U.S. Provisional Patent Application No. 62/068,516 was filed on October 24, 2014 (the "Application"); and

WHEREAS, MOOG INC. ("Moog"), a New York corporation having a place of business at Seneca and Jamison Road, East Aurora, New York 14052, is desirous of acquiring all right, title and interest in and to the Applications, the invention described therein, and any and all applications and patents claiming priority therefrom.

NOW, THEREFORE, in consideration of the sum of One Dollar (\$1.00), and other good and valuable consideration to us in hand paid, the receipt and sufficiency of which is hereby acknowledged, we do hereby assign, sell, transfer, convey and set over to MOOG, free and clear of all liens, encumbrances and other restrictions or obligations, all of our right, title and interest in and to (i) the Application, (ii) all inventions and designs described in the Application and all patent applications relating thereto which have been or shall be filed in the United States, its territorial possessions and/or any foreign countries, (iii) all applications claiming the benefit of the filing date or claiming priority, directly or indirectly, from any of the foregoing, including without limitation any and all non-provisional applications, divisional applications, continuation applications, continuation-in-part applications, reissue applications, reexaminations, extensions and corresponding international, regional, national and other foreign applications, (iv) all rights, including without limitation all priority rights, under any international conventions, unions, agreements, acts and treaties, (v) all patents issuing or reissuing, directly or indirectly, from any of the foregoing, (vi) all other forms of protection that may be provided in any country for the Application, any of the inventions described therein, or the disclosure therein, and (vii) all claims for damages, injunctive relief and all other remedies arising out of any infringement or violation of any of the foregoing assigned rights, with the right to sue for past infringement and to collect and retain damages that may have accrued prior to the effective date of this Assignment, or which have accrued or may hereafter accrue, for MOOG's own use and benefit and for the use and benefit of MOOG's

successors, assigns and other legal representatives (all of the foregoing hereafter referred to collectively as the "Subject Property").

AND, WE do hereby acknowledge and agree that MOOG, as the assignee of the entire right, title and interest thereto, shall have sole control over and sole and absolute discretion with respect to any decisions regarding the Subject Property, including without limitation with respect to any decisions regarding where to file patent applications and the prosecution and maintenance of any patent applications or patents.

AND, WE do hereby authorize and request that any patents issued from any of the Subject Property be issued to MOOG, as the assignee of the entire right, title and interest thereto.

AND, WE do hereby agree to execute, upon request of MOOG and at MOOG's expense, any and all documents that MOOG deems necessary or convenient to vest or record title in and to any of the Subject Property in MOOG, and to provide such other material, information or assistance related to the Subject Property as MOOG may deem necessary or convenient.

AND, WE do further understand, confirm and acknowledge that in executing this document we are transferring our entire interest in and to the Subject Property to MOOG, and that the attorney(s) appointed in the Application also represent MOOG and any co-inventor(s) identified in the Application. We consent to such multiple representation for the purpose of prosecuting any of the foregoing patent applications, and do hereby authorize the attorney(s) to take all future instructions from MOOG. We are unaware of any potential interest that we may have that differs from, or is adverse to, that of MOOG with respect to the prosecution of the foregoing patent applications, and we further acknowledge that, prior to executing this document, we did not seek or obtain any legal advice from MOOG's attorney(s) with respect to this Assignment and that we have been informed of our right to seek independent counsel of our own choosing and at our own personal expense.

IN TESTIMONY WHEREOF, WE have executed this Assignment as of the 24th day of October, 2014.

EUGENE F. KEOHANE
