PATENT ASSIGNMENT OF SHARE OF OWNERSHIP

Attorney Case Number: 22972US01

U.S. Serial Number: 12/681682

THIS PATENT ASSIGNMENT ("Assignment") is made by INSERM (Institut National de la Sante et de la Recherche Medicale), 101, rue de Tolbiac, Paris 75013, France ("Assignor"); and Universite Paris 7 – Denis Diderot, 2, Place Jussieu, Paris Cedex 05, 75251, France ("Assignee").

NOW, THEREFORE, in exchange for good and valuable consideration in hand paid, the receipt, adequacy, and sufficiency of which are hereby acknowledged, the Assignor hereby assigns to the Assignee, its successors and assigns:

A PART of the right, title and interest in and to the inventions and improvements disclosed in a United States patent application entitled, "METHOD FOR PREPARING POROUS SCAFFOLD FOR TISSUE ENGINEERING, CELL CULTURE AND CELL DELIVERY" and identified as Case No. 22972US01, in the offices of McANDREWS, HELD & MALLOY, LTD., filed on April 5, 2010, in the United States Patent and Trademark Office as Serial No. 12/681682 which is a National Stage Entry of PCT/EP08/63671 filed on October 10, 2008 (collectively referred to hereinafter as the "Applications"),

and in any and all other (provisional or non-provisional) applications, both United States and foreign, based thereon or that claim priority thereto, including any continuation, continuation-in-part, divisional application that the Assignor may file, either solely or jointly with others, and in any and all Letters Patent of the United States and foreign countries that may be obtained on any of said applications, and in any reexamination, renewal, substitution, reissue or extension of such applications or patents, and every priority right that is or may be predicated upon or arise from said inventions, improvements, applications, and Letters Patent.

The Assignor and Assignee hereby agrees upon request of said Assignor or Assignee, its successors and assigns, to execute any and all continuation, continuation-in-part, divisional, extension, renewal, and substitute applications for said invention or improvements, and any necessary oath, affidavit or declaration relating thereto, and any application for the reissue, reexamination, or extension of any Letters Patent that may be granted upon said Applications, that said Assignor or Assignee, its successors or assigns may deem necessary or expedient; and to cooperate to the best of the ability of the Assignor and/or Assignee, its successors and assigns, in any proceedings or transactions involving such applications or patents, including the preparation and execution of preliminary statements, giving and producing evidence, and performing any and all acts necessary to obtain said Letters Patent in the United States and foreign countries, and vest the portion of the rights therein hereby conveyed in the Assignee, its successors and assigns, whereby said Letters Patent will be held and enjoyed, in equal part, by said Assignor and Assignee, successors and assigns, to the full end of the term for which said Letters Patent will be granted, as fully and entirely as the same would have been held and enjoyed by the Assignor if this Assignment had not been made.

This Assignment shall be binding upon and shall inure to the benefit of Assignee and Assignor and their respective successors and assigns. This Assignment may be executed in one or more counterparts, all of which shall be considered one and the same Assignment. The signatures from each counterpart may be combined with a copy of the Assignment to constitute the entire Assignment.
