AMENDMENT TO PATENT ASSIGNMENT

THIS FIRST AMENDMENT TO PATENT ASSIGNMENT (this "Amendment") is entered into as of 1 July 2015 by and among **CONOPCO, INC.**, a New York company having a place of business at 700 Sylvan Avenue, Englewood Cliffs, NJ 07632 (the "Assignor"), and **UNILEVER BCS US, INC.**, a Delaware corporation having a place of business at 700 Sylvan Avenue, Englewood Cliffs, NJ 07632 (the "Assignee").

WHEREAS, Assignor and Assignee entered into that certain Patent Assignment (the "Assignment") dated July 1, 2015;

WHEREAS, Assignor and Assignee have agreed to amend the Assignment as more fully set forth below;

WHEREAS, the "Patents" means those patents and patent applications identified in Schedule A to the Assignment; and

NOW, THEREFORE, for good and valuable consideration, the receipt of which is hereby acknowledged, Assignor has sold, assigned and transferred, and by these presents do sell, assign and transfer unto said Assignee, and Assignee's successors and assigns, all right, title and interest in and to the patents, patent applications and the inventions disclosed and claimed therein, and any Letters Patent which may hereafter be granted on the same in the United States and all countries throughout the world including any reissues, divisions, renewals, continuations in whole or in part, substitutions, conversions, reexaminations, prolongations, provisionals or extensions thereof, as well as rights to any and all existing causes of action and the right to past damages associated therewith, and all rights under the Patent Cooperation Treaty ("PCT") and the Paris Convention for the Protection of Industrial Property, the same to be held and enjoyed by Assignee, for its own use and behalf and the use and behalf of its successors, legal

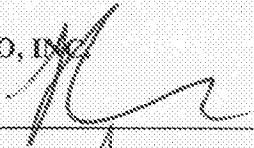

representatives, and assigns, to the full end of the term or terms for which Letters Patent or Patents may be granted as fully and entirely as the same would have been held and enjoyed by Assignor had this sale and assignment not been made. With respect to PCT patent applications in particular:

- 1.1 The Assignor shall use its reasonable endeavours to procure that, as soon as reasonably practicable after the Effective Date, the Assignee is joined, and recorded at the relevant intellectual property registries (including the World Intellectual Property Office), as the applicant of each of the PCT Patent Applications, such that the Assignee replaces the Assignor as the applicant.
- 1.2 If at such time as any PCT patent applications proceed to a national application or registration, the Assignor is recorded as the applicant or proprietor of such national application or registration, the Assignor shall execute such documents and take such further actions as the Assignee may reasonably require in order to record the Assignee as the applicant or proprietor of such national application or registration.

Assignor further agrees that Assignor will, without charge to said Assignee, but at Assignee's expense, cooperate with Assignee in the prosecution of said application and/or applications, execute, verify, acknowledge and deliver all such further papers, including applications for Letters Patent and for the reissue thereof, and instruments of assignment and transfer thereof, and will perform such other acts as Assignee lawfully may request, to obtain or maintain Letters Patent for said inventions and improvements in any and all countries, and to vest title thereto in said Assignee, or Assignee's successors and assigns.

IN WITNESS WHEREOF, Assignor, by its duly authorized officer, has executed this assignment as of this 22nd day of July, 2015.
