Joint US InventorsASSIGNMENT

WHEREAS we, **Richard N. Anderson, Donald E. Fraser and Robert E. Fisher II, and Steven R. Haarer** (the "Inventors"), residing respectively at, **9885 Melba Lane, Whitesville, KY 42378, 1836 Fawn Drive, Owensboro, KY 42303, and 1712 Fawn Drive, Owensboro, KY 42303, and P.O. Box 28, Maceo, KY 42355** are the joint inventors of an invention in *Cord Drive for Covering for Architectural Openings* for which invention we have executed a United States patent application under 35 USC 111 having serial number **13/933,826** filed on **July 2, 2013** which is a continuation of application **13/276,668** filed on **October 19, 2011** which is a continuation of **PCT/US2010/031690** filed on **April 20, 2010** and is a continuation-in-part of application **12/427,132** filed **April 21, 2009** which is a continuation-in-part of application **11/876,360** filed **October 22, 2007**, claiming the benefit of a US provisional patent application bearing serial number **60/862,855** filed on **October 25, 2006** and from US provisional application bearing serial number **60/909,077** filed on **March 30, 2007** herewith, and we are entitled to assign our entire right, title and interest world-wide in and to the invention and any intellectual property protection for the invention, including the US patent application and any Canadian patent application therefor; and

WHEREAS, **Hunter Douglas Inc.** (the "Company"), having a place of business at **1 Blue Hill Plaza, Pearl River, NY 10965 USA**, is desirous of obtaining our entire right, title and interest world-wide in and to the invention and any intellectual property protection for the invention, including the US patent application and any Canadian patent application therefor;

NOW THEREFORE, in consideration other good and valuable consideration, we hereby sell, assign and transfer to the Company, its successors, legal representatives and assigns, our entire right, title and interest world-wide in and to the invention and all applications for industrial property protection, including, without limitation, all applications for patents, utility models and designs, whether original, divisional, continuation, renewal, reissue, or the like, now on file or subsequently filed, for the invention world-wide, together with the right to file such applications and the right to claim for such applications the priority rights derived from the US patent application under any national or international intellectual property laws or agreements and any industrial property protection including, without limitation, patents, utility models and designs, now or hereafter granted, for the invention world-wide, and any extensions, renewals, reissues or the like thereof.

FURTHER we hereby authorize and request any official of any state, responsible for issuing patents or other evidence or forms of any industrial property protection, to issue the same for the invention to the Company, its successors, legal representatives and assigns, in accordance with this assignment.

ALSO we hereby agree that we have the full right to convey our entire, right, title and interest in and to the invention world-wide and all applications for industrial property protection for the invention world-wide and that we have not executed, and will not execute, any agreement in conflict with this assignment.

MOREOVER we hereby agree that we will communicate to the Company, its successors, legal representatives and assigns any facts known to us respecting the invention and testify in any legal proceeding, sign any lawful papers, execute any original, divisional, continuation and reissue applications, make any rightful oaths, and generally do everything possible to aid the Company, its successors, legal representatives and assigns to obtain and enforce proper protection for the invention world-wide.

FURTHER we hereby agree that this assignment is to be considered effective as of the filing date of the US patent application and we hereby authorize the Company, its successors and assigns, or anyone it may properly designate, to insert in this instrument the serial number of the US patent application.
