PATENT ASSIGNMENT

PARTIES TO THE ASSIGNMENT:

Assignor:
A.M. Precision Machining, Inc.
170 South Lively Blvd.
Elk Grove Village, Illinois 60007
United States

State of Incorporation: Illinois

Assignee:
Andy G. Kozlowski
29W028 River Glen Road
West Chicago, Illinois 60185
United States

PATENTS SUBJECT TO THE ASSIGNMENT:

Patent Number...............................................................7,367,759
Issue Date ................................................................. 6 May 2008
Title: Surface Relief Grating Image Machining Process and Product

Patent Number...............................................................7,491,021
Issue Date ................................................................. 17 February 2009
Title: Surface Relief Grating Image Machining Process and Product

Foreign Jurisdiction................................................. Canada
Patent Number.............................................................2,688,468
Issue Date ................................................................. 10 December 2013
Title: Surface Relief Grating Image Machining Process and Product

WHEREAS, the Assignor identified above, a corporation organized and existing under
the laws of the State indicated above, and having its principal place of business at the address
indicated above, is the owner of all right, title, and interest in and to one or more new and useful
processes, methods, machines, devices, systems, manufactures, and/or compositions of
matter, or new and useful improvements thereof (the “Inventions”), disclosed and described in
the issued Patents indicated and identified above; and

WHEREAS, Assignee identified above, an individual with a mailing address indicated
above, desires to acquire the entire right, title, and interest of Assignor in and to the Inventions
and the Patents;

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of
which is hereby acknowledged, Assignor has sold, assigned, and transferred and does hereby
sell, assign, and transfer to the Assignee, its successors, legal representatives, and assigns, the
entire right, title and interest in and to the Inventions, the Patents, and all reexamination and
reissue applications thereof, all international, regional, and foreign applications that claim priority

Parties’ Initials

1 of 4
to, are counterparts of, or otherwise correspond thereto; the Letters Patent, both in the United States and in countries or regions foreign thereto, that may or shall issue or have issued therefrom; any extensions, substitutes, or renewals thereof; the right to claim priority to the filing date of the Patent Application; any right, title, or interest in and to the Inventions under any international conventions; and any and all rights to collect past damages for infringement of any provisional rights and of any and all Letters Patent of the United States and any countries and regions foreign thereto which may be, shall be, or have been published, which may be, shall be, or have been granted, or which may be lodged (collectively "the Patent Rights"); and

Assignor hereby authorizes and requests transfer of the Patents, and any further applications, which may be or shall have been filed under the Patent Rights, to the Assignee in accordance herewith and further authorizes and requests any official of any State whose duty consists of issuing patents or other evidence or forms of any industrial property protection issuing from the Patent Rights and all related applications, to issue same to the Assignee, its successors, and assigns in accordance herewith; and

Assignor represents and warrants that Assignor has the right, title, and authority to execute this Assignment and to convey all right, title, and interest in the Patent Rights, and that Assignor has not conveyed nor will convey hereafter all or part of the Patent Rights to a third party, and Assignor hereby covenants and agrees with the Assignee, its successors and assigns, that Assignor will not execute in writing or do any act whatsoever conflicting with these representations; and

Assignor, on behalf of any individuals associated with the filing or prosecution of the Patent Application in Assignor’s employ or under its direction or control, agrees to disclose to the Assignee any information, including, but not limited to, prior art references, that Assignor is presently aware of or becomes aware of in the future that would materially affect the patentability of the Invention or the future validity of the Patent Rights; and

Assignor, Assignor’s successors, legal representatives, or administrators will at any time upon request, without further or additional consideration, but at the expense of the Assignee, its successors, and assigns, execute such additional writings and do such additional acts as said Assignee, its successors, and assigns, may deem necessary or desirable to perfect the Assignee’s enjoyment of this grant, and render all necessary assistance in making application for, obtaining, and enforcing any of the Patent Rights, including giving testimony in any proceedings or transactions involving such Patent Rights; and

Assignor further covenants and agrees that this Assignment is effective as of the date of execution of this document by Assignor’s representative below.
IN WITNESS WHEREOF, the Assignor hereunto has executed this Assignment upon the date indicated below.
