ASSIGNMENT OF PATENTS

This Assignment is made between these parties and is effective May 15, 2017.

Nicholas E. Young, of Murray, Utah, United States of America (**Inventor**);

and

Desert Tech LLC, a limited liability company organized and existing under the laws of the State of Utah, with its principal place of business at 1995 West Alexander Street, West Valley City, Utah 84119, United States of America (Entity No. 7560239-0160) (**Assignor**),

and

Desert Leasing & Licensing LLC, a limited liability company organized and existing under the laws of the State of Utah, with its principal place of business at 1995 West Alexander Street, West Valley City, Utah 84119, United States of America (Entity No. 6626366-0160), (**Assignee**).

WHEREAS Inventor contracted with **Assignor** through an employment contract to develop certain inventions; and

WHEREAS Inventor has invented **Inventions** disclosed in:

United States Patent No. 8770084 (suppressor assembly for firearms) and
United States Patent No. 9194641 (barrel alignment and locking assembly)
(the **Patents**); and

WHEREAS Inventor developed the **Inventions** as an employee of **Assignor**, and on behalf and for the benefit of **Assignor**, and under terms making **Assignor** the owner of the **Inventions**;

WHEREAS by virtue of the employment contracts **Assignor** is the owner of the **Inventions** and the intellectual property interests described in the **Patents**; and

WHEREAS the parties mutually desire and intend that **Assignor** will transfer and **Assignee** will acquire all right, title and interest in and to the **Inventions** and the **Patents**;

THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties agree as follows:

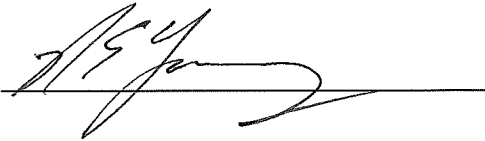

1. **Inventor** affirmatively warrant that he invented, and that **Assignor** is the sole owner of, the **Inventions** and the **Patents**, free and clear of any claim by others. **Inventor** irrevocably and unconditionally disclaims, waives, and releases any and all claims to any right, title, or interest in the **Inventions** and the **Patents**.
2. **Assignor** irrevocably and unconditionally grants, assigns and transfers to **Assignee**, and **Assignee** accepts the grant, assignment and transfer, of all right, title and interest in and to the **Inventions** and the **Patents**, and in and to all Patent and patents that may be granted or otherwise derived from the **Inventions** and the **Patents** including any divisional, continuation or other application(s) of the **Patents** and patents issued thereunder, and including the right to claim priority from the **Patents**.

3. **Assignee** will record the transfer with the U.S. Patent and Trademark Office (USPTO) and pay the recording fee.

4. The parties will execute all other documents, forms and authorizations and depose to or swear any declaration or oath as may be required for absolutely vesting full right, title and interest in and to the **Inventions**, the **Patents**, and any patents granted or derived therefrom in favor of **Assignee** in any and all countries.
