ASSIGNMENT OF RIGHTS IN PATENT APPLICATION

Ruhrpumpen, Inc. ("Assignor") is the owner of "System and Method for Speed Control of Variable Speed Pumping Systems", as described in the U.S. Patent Application filed by Assignor on or about September 2, 2015, U.S. Patent and Trademark Office Application Serial Number: 14/843,377 (the "Patent Application"). Tigerflow Systems, LLC ("Assignee") desires to acquire all rights in and to the Patent Application and the patent (and any reissues or extensions) that may be granted.

Therefore, for valuable consideration, the receipt of which is acknowledged, Assignor assigns to Assignee 100% of its right, title, and interest in the invention and Patent Application throughout the world (as well as such rights in any divisions, continuations in whole or part or substitute applications) to Assignee for the entire term of the issued Patent and any reissues or extensions that may be granted and for the entire terms of any and all foreign patents that may issue from foreign applications (as well as divisions, continuations in whole or part or substitute applications) filed claiming the benefit of the Patent Application.

Assignor authorizes that any and all patents for "System and Method for Speed Control of Variable Speed Pumping Systems" be issued to Tigerflow Systems, LLC in the United States and in all countries foreign to the United States, or to such nominees as Assignee may designate. The right, title and interest is to be held and enjoyed by Assignee and Assignee's successors and assigns as fully and exclusively as it would have been held and enjoyed by Assignor had this assignment not been made.

Assignor hereby consents that a copy of this assignment shall be deemed a full legal and formal equivalent of any document which may be required in any country in proof of the right of Assignee to apply for patent or other form of protection for said invention and to claim the aforesaid benefit of the right of priority.

Assignor further agrees to: (a) cooperate with Assignee in the prosecution of the Patent Application and foreign counterparts; (b) execute, verify, acknowledge and deliver all such further papers, including patent applications and instruments of transfer; and (c) perform such other acts as Assignee lawfully may request to obtain or maintain the Patent for the invention in any and all countries.
