as Assignee,

for its own use and benefit, and for its successors and assigns, the entire right, title and interest, for all countries, in and to: (a) the Inventions; (b) the Patent Application and all related patent rights; (c) any and all other provisional and non-provisional patent applications pertaining to said Inventions or the Patent Application (the "Other Applications"); (d) any and all patent applications claiming priority to the Patent Application and/or to the Other Applications, or from which the Patent Application or the Other Applications claim priority, including international and foreign application (collectively, the "Priority Applications"); (e) any and all continuing applications of the Patent Application, the Other Applications and the Priority Applications (the "Continuing Applications"); (f) any and all reissues, re-examinations and/or extensions relating to or of the Patent Application, the Other Applications or the Priority Applications, including, without limitation, any and all renewals of and/or substitutes thereof (collectively, the "Extensions"); and (g) any and all rights and privileges that may be issued, granted or otherwise arise from, in any country, any and all said Inventions (such rights and privileges including, without limitation, any and all patent rights, other protections arising from patent applications, and other proprietary rights). unwilling to cooperate in the process of effecting a transfer of ownership, or recordation of ownership right(s) in the name of the Assignee.

We agree that, when requested, we will, without charge to said Assignee but at its expense, execute additional assignments and all other writings, make all declarations and take all oaths, and do all other acts which Assignee reasonably may deem necessary, desirable or convenient (i) for perfecting, securing, maintaining, asserting, and enforcing any and all patent applications and patents for, and other rights and privileges relating to, said inventions and Patent Family Rights in any and all countries and (ii) for vesting the entire right, title and interest therein and thereto solely in said Assignee, its successors and assigns, or such nominee(s) as Assignee may designate. We authorize and empower said Assignee, its successors and assigns, or such nominee(s) as Assignee may designate, to invoke and claim in any application in the Patent Family Rights, and in any and all other applications for patent or other form of protection for said inventions filed by or for it or them, the benefit of the right of priority provided by the International Convention for the Protection of Industrial Property, as amended, or by any treaty or convention which may henceforth be substituted for or be an alternative to the Convention, and to invoke and claim such right of priority without further written or oral authorization from us.

This Assignment grants said Assignee (or its successors and assigns, or nominee(s) as Assignee may designate) the sole right (a) to pursue in its own name any past, present, or future actions (including, without limitation, claims of infringement) based on any and all rights and privileges that may be issued, granted or otherwise arise from, or relate to, in any country, any and all said inventions (such rights and privileges including, without limitation, any and all patent rights, other protections arising from patent applications, and other proprietary rights) and (b) to exclusively retain any awards, settlements, or other remedies therefrom, as fully and as entirely as we would have had the right to pursue and to retain had this assignment and sale not been made.

We hereby consent that a copy of this Assignment shall be deemed a full legal and formal equivalent of any assignment, consent to file, or like document which may be required in any country for any purpose and, more particularly, in proof of the right of said Assignee (or its successors and assigns, or nominee(s) as Assignee may designate) to claim the aforesaid benefit of the right of priority provided by the International Convention for the Protection of Industrial Property, as amended, or by any treaty or convention which may henceforth be substituted for the Convention. We covenant, with said Assignee, its successors and assigns, that the rights and property herein conveyed are free and clear of any encumbrance, and that we have full right to convey the same as herein expressed.

We agree that we will not execute any assignment, encumbrance or other writing, or do any other act, that conflicts (a) with this Assignment or (b) without limiting the generality of the foregoing, with any provision set forth herein.
