Mock**, of Durham, North Carolina (hereinafter **ASSIGNORS**) are inventors of the one or more new and useful improvements described in a U.S. Patent Application Serial No. 15/422,744, Attorney Docket No. 210-14-1-UTIL, filed on or about February 2, 2017 with the title: **APPARATUS AND METHOD FOR PROVIDING A SELECTIVELY ABSORBING STRUCTURE**, which is a continuation application of US Patent Application No. 14/394,774, filed October 16, 2014, which is a 35 USC 371 application of PCT International Patent Application No. PCT/US13/36847, filed April 16, 2013, which claims priority to United States Provisional Patent Application No. 61/624,571 filed April 16, 2012.

WHEREAS, **Duke University**, having an address of 2812 Erwin Road, Suite 306, Durham, North Carolina 27705 (hereinafter, together with any successors, assigns, legal representatives of assignee or to any number of iterations of successors and assigns, collectively called **ASSIGNEE**) is desirous of transferring and memorializing the transfer of the entire right, title and interest therein for **ASSIGNEE**;

NOW, THEREFORE, **ASSIGNORS**, through **ASSIGNORS'** employment or other relationship with **ASSIGNEE** and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the said **ASSIGNORS** by these presents hereby sell, assign, and transfer unto the said **ASSIGNEE** the full, exclusive, non-revocable, and worldwide rights, if any, to the said improvements, including improvements to ornamental design, and to all **ASSIGNORS** copyrights in the above-identified application(s), including:

all rights currently owned or acquired in the future by **ASSIGNORS** in any patent or other legal document claiming one or more aspects of the improvements described in the above-identified application(s) whether or not the improvement is explicitly claimed in the above-identified application(s);

all rights currently owned or acquired in the future by **ASSIGNORS** in any patent or other legal document that claims any of the above-identified application(s) as a priority document, and any patent which results directly or indirectly through any number of links to any of the above-identified patent application(s), including links such as: one or more provisional applications which include the subject matter in the application(s) identified above, one or more non-provisional applications which include subject matter in the application(s) identified above including applications which do not claim priority to the application(s) identified above, one or more continuation or divisional applications, one or more continuation-in-part applications, one or more reissue processes, one or more re-examination proceedings, or any other like processes to any of the above;

and the right to claim priority to one or more of the application(s) identified above for all member countries under any international agreements concerning intellectual property, including

ASSIGNORS hereby authorize and request the Commissioner for Patents of the United States Patent and Trademark Office, and any officials of foreign or other patent systems whose duty it is to issue patents or related rights on applications as referenced above to issue any patents or document conveying rights arising from any of the above-identified patent application(s) to ASSIGNEE in accordance with the terms of this assignment for ASSIGNEE's sole use and behalf, to the full end of the term for which any patent may be granted, as fully and entirely as the same would have been held by ASSIGNORS had this assignment and sale not been made.

ASSIGNORS hereby grant to ASSIGNEE the right to file applications in any or all countries or regional systems on any of the conveyed intellectual property in the name of the ASSIGNORS, in the name of the ASSIGNEE, or otherwise, as ASSIGNEE may deem advisable.

ASSIGNORS agree that upon request of ASSIGNEE, and without further remuneration, to execute any and all papers desired by ASSIGNEE, for full protection and title in and to the improvements hereby transferred including any and all papers desired by ASSIGNEE for the filing and granting of foreign applications and the perfecting of title thereto in ASSIGNEE.

ASSIGNORS hereby further covenant and agree that ASSIGNORS have the full right to convey the entire interest herein assigned, and ASSIGNORS have not and will not execute any agreement in conflict herewith.

ASSIGNORS agree that if any provision of this Assignment shall for any reason be held to be invalid or unenforceable, such decision shall not affect, impair or invalidate the remainder of this Assignment but shall be confined in its operation to the provision of this Assignment directly involved in the controversy in which the decision was rendered. The invalid or unenforceable provision shall be reformed so that ASSIGNORS shall have the obligation to perform reasonably in the alternative to give the ASSIGNEE the benefit of its bargain. In the event the invalid or unenforceable provision cannot be reformed, the other provisions or applications of this Assignment shall be given full effect, and the invalid or unenforceable provision shall be deemed struck.
