ASSIGNMENT

This Assignment made by **Toby James Hartley**, being a resident of Australia and having a correspondence address of c/o ASAP BreatheAssist Pty Ltd, of Suite 1, 1233 High Street, Armadale, Victoria, 3143, Australia;

WITNESSETH: That,

WHEREAS, I believe I am the original designer/inventor of an industrial design disclosed in Australian Design Registration No. 363373 filed on June 5, 2015; and in a corresponding U.S. design patent application filed or to be filed entitled **NASAL DILATOR DEVICE**, and whereas I authorize representatives of FB Rice Patent & Trade Mark Attorneys (having a principal place of business in Melbourne, Australia) and its appointed agents to enter the following information identifying such U.S. design patent application when known: U.S. Design Patent Application No. 29/547,579 filed on December 4, 2015 (with the foregoing Australian Design Registration being referred to as "the Registration" and the U.S. patent application being collectively referred to "the Application"); and

WHEREAS, **ASAP BreatheAssist Pty Ltd**, a corporation having a principal place of business at Suite 1, 1233 High Street, Armadale, Victoria, 3143, Australia, hereinafter referred to as Assignee, is desirous of acquiring the entire right, title and interest in and to the design as disclosed in the Registration and the Application, and any and all design patents which shall be granted based on the Application;

NOW, THEREFORE, To All Whom It May Concern, be it known that for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, I hereby sell, assign, transfer and set over unto the Assignee, its successors and assigns, the entire

right, title and interest in and to the design, the Registration, and the Application, and in and to any and all foreign applications for design registration filed on the design based on and/or claiming priority to the Registration, and in and to any and all design patents of the United States and design registrations of foreign countries which may hereafter be granted therefor, and in any and to any and all continuations, continuations-in-part, substitutions, divisions or reissues of the Application and of said design patents and design registrations, the same to be held and enjoyed by the Assignee, for its interest, and for its own use and behalf, and the use and behalf of its successors and assigns, to the full end of the term for which said design patents and design registrations may be granted as fully and entirely as the same would have been held and enjoyed by me had this assignment and sale not been made, and I hereby authorize and empower the Assignee, its successors, assigns or nominees to file applications for design patents and/or design registrations or other form of protection on said design in its own name or in the name of its successor, assignee, or nominee, in any and all countries where it may desire to file such applications and where said applications may be filed by another than the designer/inventor;

And for the consideration aforesaid, I further covenant and agree that, at the time of the execution and delivery of these presents, I have the unencumbered right and authority to make this assignment, and I have not executed any prior assignment(s) or created any encumbrances relating to the Registration, the Application, or any other applications mentioned above to any person or entity other than the Assignee identified herein;

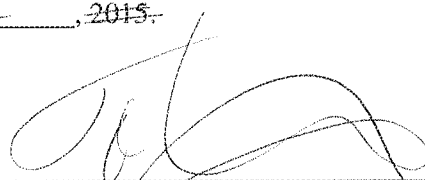

And for the consideration aforesaid, I hereby covenant and agree to and with the Assignee, its successors and assigns, that I will, whenever its counsel or the counsel of its successors and assigns, learned in the law, shall advise that an amendment, division,

continuation, continuation-in-part, or substitution of, or any other proceeding in connection with the Registration and/or the Application or corresponding foreign applications, including interference or derivation proceedings, is lawful and desirable, sign all papers and drawings, take all rightful oaths, and do all acts necessary or required to be done for the procurement of valid design patents or design registrations for said design, or for the reissue of the same without charge to the Assignee, its successors or assigns, but at its or their expense, and I hereby covenant and agree to sign all papers and drawings, take all rightful oaths, and do all acts necessary or required to be done for procurement of design patents, design registrations, or other form of protection, for said design in countries foreign to the United States, and for further investing or confirming the right and title therein to the Assignee, its successors, assignee, or nominee, without charge to the Assignee, its successor, assignee or nominee, but at its or their own expense;

I hereby request the Commissioner for Patents and other applicable patent authorities to issue the design patents and design registrations in accordance with this instrument;

IN WITNESS WHEREOF, I have hereunto set my hand and seal.
