PATENT ASSIGNMENT

WHEREAS, Charles Darwin Davidson, Jr. residing in Little Rock, Arkansas and William B. Lutz residing in Little Rock, Arkansas , (“Assignors”) are the sole inventors of ELECTROMAGNETIC SIGNAL TRANSPORT AND DISTRIBUTION SYSTEMS, identified as non-provisional U.S. Patent Application No. 15/613,391 filed June 5, 2017 (“Invention”);

WHEREAS, PERFECTVISION MANUFACTURING, INC of Little Rock, Arkansas (“Assignee”), desires to acquire by formal, recordable assignment the entire right, title, and interest in and to the Invention, this application, and any Patent(s) that have been and might be granted for the Invention in the United States and throughout the world.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Assignors hereby sell, assign and transfer to Assignee, the entire right, title and interest in and to the Invention, this application, any applications claiming the benefit of this application, including all divisionals, continuations, reissues, reexaminations and extensions thereof throughout the world and any Patent(s) that have been and might be granted for the Invention in the United States and throughout the world, including the right to file applications directly in the name of Assignee and to claim for any such applications any priority rights to which such applications are entitled under applicable laws, conventions, treaties or otherwise and including the right to sue for and obtain damages and any other relief allowed by law for past, current, and future infringement of said Patent(s).

Further, Assignors agree that, upon request and without further compensation, but at no expense to Assignors, they and their legal representatives and assigns will perform all lawful acts, including the execution of papers and the giving of testimony, that might be necessary or desirable for obtaining, sustaining, reissuing or enforcing Patent(s) in the United States and throughout the world for the Invention, and for perfecting, recording or maintaining the title of Assignee, its successors and assigns, to the Invention, the application, and any Patent(s) granted for the Invention in the United States and throughout the world.

OUT-17003

Assignors represent and warrant that they have not granted and will not grant to others any rights inconsistent with the rights granted by this Assignment.
