INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT

This Intellectual Property Assignment Agreement ("**IP Assignment**"), effective as of June 2, 2017, is by and between Intubrite, LLC, a California limited liability company with a place of business at 2460 Coral Street, Vista, California 92081 ("**SELLER**"), and SALTER LABS, a California corporation with a place of business at 272 East Deerpath Road, Suite 302, Lake Forest, Illinois 60045 USA ("**BUYER**"), the purchaser of substantially all assets of SELLER pursuant to the Agreement for Purchase and Sale of Assets between BUYER and SELLER, dated contemporaneously herewith (the "**Purchase Agreement**").

Pursuant to the Purchase Agreement, SELLER has sold, assigned, conveyed, and otherwise transferred to BUYER, among other assets, certain intellectual property of SELLER, including, without limitation, certain issued patents and pending patent applications listed in **Schedule A** (the "**Patents**"); common law, pending applications, and/or registered trademarks listed in **Schedule B** (the "**Trademarks**"); domain name registrations listed in **Schedule C** (the "**Domains**"); and the websites, text, graphics, videos, links, product descriptions, product literature, and other content related to or used in connection with the Domains (the "**Content**").

Accordingly, for good and valuable consideration set forth in the Purchase Agreement, the receipt and sufficiency of which are hereby acknowledged SELLER and BUYER (each a "**party**" and together, the "**parties**") agree as follows:

1. **Assignment.** SELLER hereby forever, irrevocably sells, assigns, conveys, and otherwise transfers to BUYER, and BUYER hereby accepts:
 - a. all right, title, and interest in and to the Patents, all underlying inventions described therein, any U.S. or foreign continuation, division, renewal, substitute, or reissue thereof for the full term or terms for which the same may be granted, including the right to sue and collect damages for all past, present, and future infringements thereof;
 - b. all right, title, and interest in and to the Trademarks, including, without limitation, all common law rights, all goodwill associated therewith, all goodwill associated with the business connected with the use of and symbolized by the Trademarks, and, in all cases, the right to bring lawsuits and infringement claims on and against and to collect damages associated therewith and therefrom for all past, present, and future infringements thereof; and
 - c. all right, title, and interest in and to the Domains and Content, including without limitation, all goodwill associated therewith and any copyright or other intellectual property rights in or to the Domains and Content.
2. **Transfer of Domains.** SELLER hereby forever, irrevocably and unconditionally consents and authorizes the registrars, and any and all other registrars, and authorities having power, governance, or authority over the ownership, transfer, registration, and/or maintenance of domain names (the "**Authority**"), to transfer the Domains to BUYER. SELLER will cooperate promptly with the registrars and any other Authority and BUYER in facilitating the transfer to BUYER of the Domains, and will follow the rules designated by the registrars and any other Authority to effect such transfer. SELLER hereby gives its full authorization and consent to the registrars and any Authority to facilitate the transfer of the Domains set forth above and SELLER releases and holds the registrars

and all Authorities harmless from any and all claims or actions arising out of such transfer of the Domains, whether such claims arise in contract, tort, strict liability, or otherwise.

3. ***Miscellaneous.*** SELLER agrees that, when requested, it shall sign all papers, take all rightful oaths, and do all acts which may be necessary, desirable or convenient for securing, maintaining, and/or enforcing the Patents, Trademarks, Domains, and/or Content in all countries and for vesting title thereto in BUYER, its successors, assigns, and legal representatives or nominees. SELLER further agrees that it shall provide to BUYER, on request, all pertinent facts and/or documents relating to the Patents, Trademarks, Domains, and Content as may be known and reasonably accessible to SELLER and SELLER will testify as to the same in any interference or litigation related thereto.
