WITNESSETH

WHEREAS, Assignor is the registered owner of those United States patents and patent applications and foreign patents listed in Schedule A attached hereto (the "Patents"), except for (i) the joint interests of ILC Dover LP and Raytheon in United States Patent No. 7,767,296, Japan Patent No. 4,533,373, Germany Patent No. Unknown, UK Patent No. 1,595,023, Italy Patent No. 1,595,023, France Patent No. 1,595,023, Israel Patent No. 169448 and a pending application in Canada #2513865; and [REDACTED]

WHEREAS, Assignor, Archer Rubber LLC, Assignee and Trelleborg AB are parties to a certain Asset Purchase Agreement dated as of July 31, 2014 (the "**Purchase Agreement**") pursuant to which, inter alia, Assignee desires to acquire and Assignor has agreed to transfer to Assignee all of Assignor's right, title and interest in and to the Patents.

NOW THEREFORE, in exchange for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, and intending to be legally bound hereby, the Assignor agrees as follows:

1. Assignor does hereby sell, assign, convey, transfer, and set over unto Assignee, all of Assignor's right, title, and interest in and to the Patents, for the United States and for all foreign countries, including any divisions, reissues, reexaminations, extensions or foreign equivalents thereof or continuations or continuations-in-part, and including the subject matter of all claims which may be obtained therefrom for its own use and enjoyment, and for the use and enjoyment of its successors, assigns or other legal representatives, as fully and entirely as the same would have been held and enjoyed by Assignor if this assignment had not been made; together with all income, royalties, damages or payments due or payable as of the date hereof or thereafter, including, without limitation, all claims for damages by reason of past, present or future infringement or other unauthorized use of the Patents, with the right to sue for, and collect the same for its own use and enjoyment, and for the use and enjoyment of its successors, assigns, or other legal representatives. 2. Assignor authorizes and requests the Commissioner of Patent and Trademarks to record Assignee as owner of the Patents, including any divisions, reissues, reexaminations or extensions thereof or continuations or continuations-in-part, and to issue any and all letters patent of the United States and any foreign jurisdiction thereon to Assignee, as assignee of Assignor's entire right, title and interest in, to and under the same, for the sole use and enjoyment of Assignee, its successors, assigns or other legal representatives.
