UNITED STATES PATENT ASSIGNMENT

This Patent Assignment is made and entered into as of August 1, 2008, by and between Illinois Tool Works Inc., a Delaware Corporation ("Assignor"), and Selig Sealing Products, Inc., a Delaware company ("Assignee") (collectively referred to as the "Parties").

WHEREAS, pursuant to the Asset Purchase Agreement between the Parties of even date herewith (the "Agreement"), the Assignors have assigned all right, title and interest in the Patents (as defined by reference therein), including any and all patents and pending patent applications listed on the attached Schedule 1, and all inventions described and claimed therein (including divisionals, continuations-in-part, provisionals, reissues, reexaminations or interferences thereof) (collectively referred to as the "Patents"); and

WHEREAS, pursuant to the Agreement, the Assignee has acquired all right, title and interest in and to the Patents, and the Parties wish to record such acquisition in the U.S. Patent and Trademark Office; and

NOW, THEREFORE, for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby agree as follows:

1. Pursuant to the Agreement, which is incorporated by reference as if fully set forth herein, the Assignors hereby assign to the Assignee all of Assignors' right, title and interest in and to the Patents including all proceeds therefrom and the right to bring an action at law or in equity for any infringement, dilution or violation of any of the Patents occurring prior to the date hereof, and to collect all damages, settlements and proceeds relating to the Patents.

2. This Patent Assignment may be executed simultaneously in two or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.

3. This Patent Assignment is subject to all the terms and conditions of the Agreement. The Parties intend that this Patent Assignment is for recordation purposes only and its terms shall not modify the applicable terms and conditions of the Agreement, which govern the Parties' rights and interests in the Patents.
