# Invention Assignment Agreement

This Agreement is entered into by and between

Landon Wood  
(hereafter "Inventor")

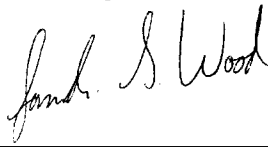

and

Lilly Jade, LLC  
1511 Lookout Cove  
San Antonio, TX 78260  
(hereafter "Assignee")

Now therefore, for good and valuable consideration, the receipt of which is hereby acknowledged, the parties agree as follows:

1. Inventor will disclose to Assignee all discoveries, developments, designs, ideas, improvements, inventions, formulas, processes, techniques, know-how, and data (whether or not patentable or registerable under copyright) made, conceived, reduced to practice, or learned by the Inventor (either alone or jointly with others) during the period of providing services for Assignee. For the purposes of this Agreement, all of the foregoing are referred to as Inventions.
2. Inventor hereby assigns and transfers to Assignee all right, title, and interest Inventor may have or may acquire in and to all Inventions. Inventor agrees to sign and deliver to Assignee (either during providing services, or subsequent thereto) such other documents as Assignee considers desirable to evidence the assignment of all rights of Inventor, if any, in any Inventions to Assignee.
3. Inventor agrees to fully assist Assignee in the procurement of registered rights, including worldwide patent rights, of all Inventions. As such, Inventor shall fully disclose all necessary information to Assignee as requested and shall not file for any competing patent, or seek interference with any patent application of Assignee, or seek to otherwise invalidate any patent claim contained in any Assignee patent which covers the Inventions.
  - a. Assignee will reimburse Inventor for time spent assisting Assignee with the prosecution of and procurement of registered patent rights at Inventor's rate for services typically paid by Assignee, and otherwise pay any reasonable and necessary expenses incurred by Inventor in the fulfillment of this provision.
4. In the event Assignee is unable to secure Inventor's signature on any document necessary to apply for, prosecute, obtain, or enforce, any patent, copyright, or other right to protection relating to any Invention, whether due to mental or physical incapacity or any other cause, Inventor hereby irrevocably designates and appoints Assignee as his/her agent and attorney-in-fact for and in his/her behalf and stead to execute and file any such document and do all other lawfully permitted acts to further the prosecution, issuance, and enforcement of patents, copyrights, or other rights or protections with the same force and effect as if executed and delivered by Inventor.

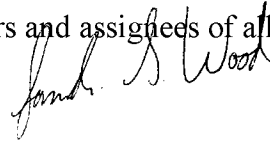

5. This Agreement shall be binding upon the heirs and assignees of all parties.
