ASSIGNMENT

Whereas we, Mickey P. Madsen and Jeppe Arnsdorf Pedersen, have invented certain new and useful improvements in a:

SELF-OSCILLATING RESONANT POWER CONVERTER

(hereinafter referred to as "Invention") described in an International Application, the specification of which was filed October 29, 2013 as International Application Number PCT/EP2013/072548, and further described in a US Application filed as a national stage entry of the International Application, the specification of which was filed April 29, 2015 as US Application No. 14/439,412;

And, whereas we desire to assign a 100% undivided interest in said Invention, said application disclosing the Invention and any Letters Patent which may be granted therefore to Danmarks Tekniske Universitet, a Danish university, having its place of business at Anker Engeltandsvej 1, Bygning 101A, 2. sal. DK-2800 Kgs. Lyngby DENMARK (hereinafter referred to as "Assignee"), and whereas Assignee is desirous of acquiring the entire right, title and interest in the same;

Now, this indenture witnesseth, that for the sum of one dollar (\$1.00), and other good and valuable consideration, the receipt whereof is hereby acknowledged;

We hereby assign, sell and transfer a 100% undivided interest in said invention, said application, including any divisions, continuations, and continuations-in-part thereof, and in and to any and all Letters Patent of the United States, and countries foreign thereto, which may be granted for said Invention, and in and to any and all priority rights, Convention rights, and other benefits accruing or to accrue to us with respect to the filing of applications for patents or securing of patents in the United States and countries foreign thereto, unto said Assignee;

And we hereby authorize and request the Director of the United States Patent and Trademark Office to issue said United States Letters Patent to said Assignee, as assignee of the whole right, title and interest thereto;

And we further agree to execute all necessary and lawful future documents, including assignments in favor of Assignee, or its designees as Assignee or its Assignees may from time-to-time present to us in order to perfect title in said Invention, modifications, and improvements in said Invention, applications and Letters Patent of the United States and countries foreign thereto;

And we further agree to sign and properly execute such necessary and lawful papers for application for foreign patents, for filing divisions, continuations and continuations-in-part of said application for patent, and/or, for obtaining any reissue or reissues of any Letters Patent that may be granted for our aforesaid invention, as the Assignee thereof shall hereafter require and prepare at its own expense.

Executed this 19th day of May, in the year 2015
