Assignment of right to grant of a patent

This agreement is entered into this 23 day of JUN 2015 between:

Jonathan Gillaspie, c/o. TestPlant Inc, 3000 Pearl St. Boulder, CO 80301, US,
hereinafter referred to as 'the Inventor'; and

TestPlant Europe Limited, of 6 Snow Hill, London, England, EC1A2AY, referred to
hereinafter as 'the Assignee',

Whereas:

the Inventor has made the invention described in US Patent Application No.
14/811,514 entitled 'Method and Apparatus for an Improved Automated Test of
Software with a Graphical User Interface' filed 28 July 2015, (hereinafter referred to
as 'the Application').

Now it is hereby agreed as follows:

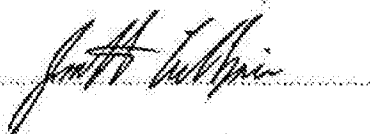

- 1) In consideration of the sum of £10 (receipt of which is hereby acknowledged), the Inventor hereby assign to the Assignee the inventions described in the Application and the right to apply for and to be granted patent protection for the inventions throughout the world, including the right to file divisional, continuation, and continuation in part applications, and utility model applications or applications for like forms of protection relating to the inventions or any part thereof.
- 2) The Inventor hereby agrees to execute all such documents as may be required from time to time to enable or facilitate the making and granting of such patent or other applications in the name of the Assignee.

In witness whereof this agreement has been executed on the date first appearing above:
