WHEREAS, pursuant to the Transaction Agreement between Assignor, Assignee, and the named Shareholders, dated 24 May 2017, and the subsequent acknowledgement letter to the Shareholders, Assignor assigned, transferred, conveyed and delivered to Assignee – and, to the extent an active assignment is not considered to be made effective by the Transaction Agreement and subsequent acknowledgement letter, Assignor does hereby assign, transfer, convey and deliver to Assignee – all of Assignor's right, title and interest in and to the patents and patent applications set forth in the attached Schedule A (the "Patents"), including all patent family members (e.g., continuations, divisionals, reissues, reexaminations, provisionals, and non-provisionals thereof) worldwide, whether or not specifically listed.

Assignor hereby authorizes the Commissioner for Patents in the United States Patent and Trademark Office to record and register this Assignment upon request by Assignee. Following the date hereof, upon Assignee's reasonable request, Assignor shall take such steps and actions, and provide such cooperation and assistance to Assignee and its successors, assigns and legal representatives, including the execution and delivery of any affidavits, declarations, oaths, exhibits, assignments, powers of attorney, or other documents, as may be reasonably necessary to effect, evidence or perfect the assignment of the Patents to Assignee, or any assignee or successor thereto.

This Assignment may be executed in counterparts, each of which shall be deemed an original, but all of which together shall be deemed to be one and the same agreement. A signed copy of this Assignment delivered by e-mail or other means of electronic transmission shall be deemed to have the same legal effect as delivery of an original signed copy of this Assignment.
