Client Ref. No.: 15-0251US01

Title: DEVICES AND METHODS FOR
REDUCING ABSORPTION

ASSIGNMENT

WHEREAS, we, Gary Dean ROYE, Sivamainthan VITHIANANTHAN, and Beth RYDER, have co-invented (with John A. Hingston, Gene T. Storbeck, Jeri Ann Miller, Kathleen Corcoran, Kali L. Manning, and Selina M. Merklung) certain new and useful improvements as described in a U.S. patent application, entitled **DEVICES AND METHODS FOR REDUCING ABSORPTION**, the application having been executed on even date herewith, and/or being identified in the United States Patent and Trademark Office ("USPTO") by Application No. 15/352,797, filed November 16, 2016 ("Invention");

WHEREAS, Lifespan Corporation, a Corporation of the State of Rhode Island, and having an address of 167 Point Street, Providence, RI 02903, U.S.A. (together with its successors and assigns, the "Assignee"), seeks to memorialize its co-ownership with Boston Scientific Scimed, Inc., of the right, title and interest in and to the Invention;

WHEREAS, the original intent of Lifespan Corporation and Boston Scientific Scimed, Inc. was for Lifespan Corporation to own our rights (i.e. the rights of inventors Gary Dean ROYE, Sivamainthan VITHIANANTHAN, and Beth RYDER) in the Invention, and for Boston Scientific Scimed, Inc. to own the rights of John A. HINGSTON, Gene T. STORBECK, Jeri Ann HILLER, Kathleen CORCORAN, Kali L. MANNING, and Selina M. MERKLING;

WHEREAS, our rights in the Invention were previously assigned to Boston Scientific Scimed, Inc. in a first executed document that was recorded on February 1, 2016, in Provisional Application No. 62/256,380, at the United States Patent and Trademark Office under Reel No. 037629 and Frame No. 0339, and in a second executed document that was recorded on January 27, 2017, in Application No. 15/352,797, at the United States Patent and Trademark Office under Reel No. 041108 and Frame No. 0699 (the "Previous Assignments"); and

WHEREAS, to the extent that the Previous Assignments to Boston Scientific Scimed, Inc. did not assign any or all of our rights in the Invention, we desire to transfer any and all of our rights in the Invention to Lifespan Corporation;

NOW, THEREFORE, in exchange for good and valuable consideration, the receipt and adequacy of which are hereby acknowledged, we transfer to Assignee our entire right, title, and interest in and to the Invention, including all inventions disclosed or claimed in the above-identified patent application, including any improvements thereof, any corresponding domestic applications (e.g., provisional, non-provisional, divisional, continuation, continuation-in-part, reexamination, and/or reissue patent), any corresponding foreign applications, all patents issuing thereon, or other patent applications based off or claiming priority to the above-identified patent application, and all rights and benefits under any applicable treaty or convention. We authorize the USPTO (or foreign equivalent thereof) to issue any patent (or similar legal protection) to the Assignee.

We hereby authorize the Assignee (or its designee) to apply for patent (or similar legal protection) in its own name if desired, in any and all countries.

Title: DEVICES AND METHODS FOR
REDUCING ABSORPTION

We represent to the Assignee that we have not and shall not execute any writing or do any act whatsoever conflicting with this Assignment. We agree when requested, without additional consideration, but at the expense of the Assignee, to provide additional reasonable assistance necessary to memorialize this assignment, to execute all oaths, declarations, assignments, powers of attorney and other papers necessary to perfect and vest title to the rights assigned herein to the Assignee; and will render all assistance in filing, obtaining, maintaining, and enforcing any patent (or similar legal protection) on the Invention in any and all countries.

Title: DEVICES AND METHODS FOR
REDUCING ABSORPTION**DECLARATION**

We have reviewed and understand the contents of the above-identified patent application including the claims, and we believe we are the original joint inventors of a claimed invention in the above-identified patent application. The above-identified patent application was made or authorized to be made by us. We are aware of and acknowledge our duty to disclose to the USPTO all information known to us to be material to patentability of the claims in the above-identified patent application. We acknowledge that any willful false statement made in this declaration is punishable under 18 U.S.C. 1001 by fine or imprisonment of not more than five (5) years, or both.
