ASSIGNMENT AGREEMENT

On the date shown below, and for good and valuable consideration the receipt of which we acknowledge, we made the following assignment and promises to Best Environmental Solutions, LLC ("Assignee"), an Alabama limited liability company having a principal place of business at 374 County Road 244, Cullman, Alabama 35057, in connection with our invention of a new and original METHOD AND APPARATUS FOR BATTERY DESULFATION, ("Invention").

1. We assign, transfer, and convey to Assignee the entire right, title and interest in and to:
 - (a) the Invention;
 - (b) the provisional application for United States Patent Serial No. 61/600,761 filed on February 20, 2012.
 - (c) any regular patent applications claiming priority from the above referenced provisional patent application and any patents issued pursuant to, or as a result of such regular patent applications;
 - (d) all applications for patent, or similar legal protection, which may be filed in any country or countries foreign to the United States with respect to the Invention;
 - (e) all patents which may be granted for the Invention in any country or countries foreign to the United States; and
 - (f) all extensions, renewals, reissues, divisions, and continuations (or their legal equivalents) of any applications or patent referred to above.
2. We authorize and request the Commissioner of Patents and Trademarks of the United States, and any official of any country or countries foreign to the United States whose duty it is to issue patents or similar legal protection on applications, to issue to Assignee all patents or similar legal protection for the Invention or improvements.
3. We agree that, upon the request of Assignee, we will
 - (a) execute any and all divisional, continuation and renewal applications for the Invention or improvements;
 - (b) execute any supplemental oath relating to the Invention or improvements;
 - (c) execute any application for reissue or extension of any patents that may be granted upon the application;
 - (d) cooperate to the best of our abilities in connection with any Interference proceeding, including but not limited to, cooperation in connection with preparing the preliminary statement and giving and producing evidence in support of such preliminary statement;

- (e) perform any and all affirmative acts to obtain a patent or patents on the Invention and vest all right in such patents in Assignee; and
- (f) perform such additional acts as Assignee may deem necessary or expedient in connection with any of the matters stated above.

4. We covenant and warrant that as of the date of this Assignment Agreement, we are the true and lawful owners of the entire right, title, and interest in the Invention, the provisional patent application, and any patents which may issue from an application claiming the benefit of the filing date of the provisional patent application, and have the full right and power to convey the same; that the same are free and clear of all liens, charges and encumbrances whatsoever; and that we have not executed and will not execute any agreement in conflict with this Assignment Agreement.

5. This Assignment Agreement is binding upon, shall inure to the benefit of, and shall be performed by the parties named, their heirs, administrators, legal representatives, successors and assigns.
