PATENT ASSIGNMENT

This PATENT ASSIGNMENT (this "Patent Assignment") is made and entered into as of June 28, 2017 (the "Effective Date") by and between Drastin, Inc., a Delaware corporation ("Assignor"), and Splunk Inc., a Delaware corporation ("Assignee"). Assignor and Assignee are referred to collectively herein as the "Parties."

RECITALS

WHEREAS, Assignor has agreed to transfer, convey, assign and deliver to Assignee, and Assignee has agreed to accept from Assignor, all of Assignor's right, title and interest in, to and under the "Patents" (defined below); and

WHEREAS, it is the intention of the parties hereto to record the transfer of the Patents by the execution and delivery of this Patent Assignment, and nothing contained herein shall in any way supersede, modify, replace, amend, rescind, waive, exceed, expand, enlarge or in any way affect the provisions, including the warranties, covenants, agreements, conditions, representations, limitations, indemnities or, in general, any of the rights, remedies or obligations, set forth in the agreement governing the transfer of the Patents.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor and Assignee hereby agrees as follows, effective immediately:

1. Assignment. Assignor hereby irrevocably assigns, transfers, conveys and delivers to Assignee, and Assignee hereby accepts from Assignor, all of Assignor's right, title and interest in, to and under (i) the patents and patent applications on Schedule 1, (ii) any counterparts or equivalents of any of the foregoing in any jurisdiction throughout the world, (iii) applications or certificates of invention based upon or covering any portion of any of the foregoing, (iv) any reissues, divisionals, renewals, extensions, provisionals, continuations, continuations-in-part, reexaminations, substitutions or revisions of any of the foregoing, (v) any other patents, applications or extensions that claim priority to or through, or share a common priority claim with, any of the foregoing and (vi) any inventions disclosed in any of the foregoing (collectively, the "Patents"); together with all (a) income, royalties, claims for damages, profits and costs and damages and payments due or payable at the Effective Date or thereafter (including damages and payments for any past, current or future infringements or misappropriations of the Patents); (b) causes of action and rights to sue, recover and collect for any past, present or future infringements or misappropriations of the Patents; and (c) corresponding rights that, now or hereafter, that may be secured throughout the world with respect to the Patents.

2. Further Assurances.

(a) Assignor hereby covenants, agrees and undertakes to execute and deliver to Assignee, whenever requested by Assignee and without further compensation to Assignor, all applications, assignments, lawful oaths and any other papers which Assignee may deem necessary and/or desirable in connection with (i) the perfection in Assignee of the rights assigned, transferred, conveyed or delivered to Assignee pursuant to this Patent Assignment, (ii) recording such sale, assignment, transfer, conveyance or delivery, and (iii) securing to Assignee or maintaining for Assignee such rights, including, without limitation, the execution of separate assignments to accomplish or record such assignment, transfer, conveyance or delivery to Assignee of such rights in any country or jurisdiction, and to cooperate reasonably with Assignee to do all other affirmative acts in connection therewith. Assignor hereby irrevocably appoints Assignee as its attorney-in-fact with respect to the Patents that are the subject of this Patent Assignment to act in Assignor's name, place and stead to execute, deliver and record any document or instrument of assignment required in any country in which such documents may be required to sell, assign, transfer, convey, delivery or confirm the rights sold, transferred, conveyed, delivered and confirmed herein.

(b) Assignor grants the attorney of record the power to insert on this Patent Assignment any further identification that may be necessary or desirable in order to comply with the rules of the United States Patent and Trademark Office, or rules of other entities including but not limited to United States or foreign governments or patent offices, for recordation of this document. Assignee shall have the right to file or record this Patent Assignment and any additional assignment documents as provided in this Section 2 with the United States Patent and Trademark Office and any other equivalent authority, entity or agency anywhere else in the world, and Assignor hereby authorizes and requests the Commissioner of Patents and Trademarks and any such equivalent authorities, entities or agencies to record Assignee as the assignee and owner of the Patents.

3. Miscellaneous.

(a) This Patent Assignment, including, without limitation, the validity hereof and the rights and obligations of the Parties hereunder, shall be construed in accordance with and governed by the laws of the State of California applicable to contracts made and to be performed entirely in such state without giving effect to the conflicts of laws principles thereof.

(b) This Patent Assignment may be executed in two or more counterparts and by the different Parties hereto on separate counterparts, each of which when so executed and delivered shall be an original, but all of which together shall constitute one and the same instrument. Any such counterpart, to the extent delivered by means of a fax machine or by .pdf, .tif, .gif, .jpeg or similar attachment to electronic mail (any such delivery, an "Electronic Delivery") shall be treated in all manner and respects as an original executed counterpart and shall be considered to have the same binding legal effect as if it were the original signed version thereof delivered in person.
