WHEREAS, I, Karl H. Beitzel, a citizen of United States of America, having an address of 212 48th St. NW, Canton, Ohio 44709, US ("ASSIGNOR") have invented certain inventions and improvements disclosed in U.S. nonprovisional patent application number 14/630,351, filed February 24, 2015, entitled "Expandable Snag Resistant Fish Hook System", the "intellectual property";

WHEREAS, Trident Outdoors LLC, a corporation of the State of Georgia, having an address of 50 Allie Drive, McDonough, Georgia 30252, US (hereinafter, ASSIGNEE) is desirous of acquiring an interest in the intellectual property;

NOW, THEREFORE, for and in consideration of good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, ASSIGNOR, by these presents does hereby sell, assign and transfer unto ASSIGNEE the full, exclusive and entire right, title, and interest in and to the intellectual property, in and to any divisions, continuations, continuations-in-part, and reissues thereof, such divisions, continuations, continuations-in-part, and reissues being included in and part of the intellectual property, and in and to all inventions and improvements disclosed and described in the intellectual property, including all rights, claims for damages, and remedies that ASSIGNOR may have to sue for damages and other remedies in respect of any infringement of the intellectual property which may have accrued prior to assignment to ASSIGNEE, or may accrue hereafter.

ASSIGNOR hereby requests the Commissioner of Patents and Trademarks to issue any and all Letters Patent of the United States resulting from the intellectual property, or from any divisional, continuation, continuation-in-part, reexamination, or reissue thereof, to ASSIGNEE, as the assignee, for its interest and for the sole use and benefit of ASSIGNEE and its assigns and legal representatives.

ASSIGNOR, by these presents does also hereby sell, assign, and transfer to ASSIGNEE, the full, exclusive, and entire right, title and interest in and to any and all patents and patent applications issued, filed, or which may be filed as a Patent Cooperation Treaty patent application, as any other type of international patent application, as a regional patent application, or in countries other than the United States, which correspond to any of the intellectual property or claim priority of or to any of the intellectual property in whole or in part (collectively, the "corresponding intellectual properties"), in and to any Letters Patent and similar protective rights granted on the corresponding intellectual properties, and in and to the right to claim any applicable priority rights arising from or required for the corresponding intellectual properties under the terms of any applicable conventions, treaties, statutes, or regulations; all such corresponding intellectual properties to be filed and issued in the name of ASSIGNEE, or its designee, insofar as permitted by applicable law.

ASSIGNOR also agrees to sign all lawful papers, execute all divisional, continuation, continuation-in-part, reexamination, reissue and other applications, make all assignments and rightful oaths, be joined with the ASSIGNEE as a nominal party if necessary to satisfy any requirement of law in any proceeding in respect of infringement, invalidity, or priority of invention, of any of the intellectual property or corresponding intellectual properties occurring

before the effective date of this ASSIGNMENT, and generally do everything reasonably possible to aid ASSIGNEE, its successors, assigns, and nominees, to obtain and enforce proper protection for all the inventions, improvements, intellectual property, and corresponding intellectual properties, in all countries throughout the world, all without charge to ASSIGNEE but at its expense.

ASSIGNOR further agrees that all records of ASSIGNOR which establish, indicate, or evidence inventorship, ownership, priority of invention, or dates of invention, including but not limited to dates of conception and dates of reduction to practice, will be made available at no additional charge to ASSIGNEE in the event such records are needed or desirable in connection with any of the intellectual property or corresponding intellectual properties. If ASSIGNOR determines that ASSIGNOR has no need of such records, then ASSIGNOR will send such records to ASSIGNEE, at no charge to ASSIGNEE, instead of destroying such records.
