JOINT TO CORPORATE ASSIGNMENT

WHEREAS, the undersigned, Karl Maurer, a resident of ^{5 NE 170th St} ~~Everett~~, Washington State, and John J. Cooper, a resident of Seattle, Washington State (hereinafter termed "said Co-inventors"), have invented certain new and useful improvements in:

Electrochemical Deblocking Solution for Electrochemical Oligomer Synthesis on an Electrode Array

and have submitted a United States Utility Application No. 14/266,595 filed April 30, 2014 which issued as U.S. Patent No. 9,267,033 on February 23, 2016 (hereinafter termed "said utility application") which claims the benefit of United States Utility Application No. 13/798,059 filed March 12, 2013 entitled "Electrochemical Deblocking Solution for Electrochemical Oligomer Synthesis on an Electrode Array", abandoned September 30, 2015, which claimed priority to United States Utility Application No. 11/090,096, filed on March 25, 2005 entitled "Electrochemical Deblocking Solution for Electrochemical Oligomer Synthesis on an Electrode Array", abandoned June 18, 2014.

WHEREAS CUSTOMARRAY INC. (hereinafter termed "Assignee"), a corporation of the State of Washington, having a place of business at 18916 North Creek Parkway, Suite 115, Bothwell, WA 098011, wishes to acquire the entire right, title and interest in and to said utility application and the invention disclosed and claimed therein, and in and to all embodiments of the invention, heretofore conceived, made or discovered by said Co-inventors (all collectively hereinafter termed "said invention"), and in and to any and all patents, certificates of invention and other forms of protection thereon (hereinafter termed "said patents") applied for, claiming priority to or granted in the United States and/or other countries.

NOW THEREFORE, for good and valuable consideration acknowledged by said Co-inventors to have been received in full from said Assignee:

1. Said Co-inventors do hereby sell, assign, transfer and convey unto said Assignee, the entire right, title and interest (a) in and to said utility application and any application claiming benefit of said utility application, and said invention; (b) in and to all rights to apply in any and all countries of the world for patents, certificates of inventions or other governmental grants on said invention, including the right to apply for patents pursuant to the International Convention for the Protection of Industrial Property or pursuant to any other convention, treaty, agreement or understanding; (c) in and to any and all applications filed and any and all patents, certificates of inventions or other governmental grants granted on said invention in the United States or any other country, including each and every application filed and each and every patent granted on any application which claims priority to or is a division, substitution, or continuation of any of application claiming priority to said utility application; (d) in and to each and every reissue or extension of any of said patents; and (e) in and to each and every patent claim resulting from a reexamination certificate for any and all of said patents.

2. Said Co-inventors hereby covenant and agree to cooperate with said Assignee to enable said Assignee to enjoy to the fullest extent the right, title and interest herein conveyed in the United States and other countries. Such cooperation by said Co-inventors shall include prompt production of pertinent facts and documents, giving of testimony, executing of petitions,

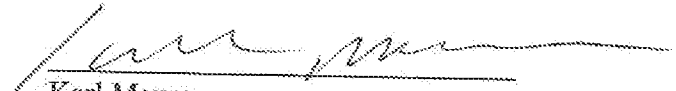

oaths, specifications, declarations or other papers, and other assistance all to the extent deemed necessary or desirable by said Assignee (a) for perfecting in said Assignee the right, title and interest herein conveyed; (b) for complying with any duty of disclosure; (c) for prosecuting any of said applications; (d) for filing and prosecuting substitute, divisional, continuing or additional applications covering said invention; (e) for filing and prosecuting applications for reissue of any of said patents; (f) for interference or other priority proceedings involving said invention; and (g) for legal proceedings involving said invention and any applications therefore and any patents granted thereon, including without limitation opposition proceedings, cancellation proceedings, priority contests, public use proceedings, reexamination proceedings, compulsory licensing proceedings, infringement actions and court actions; provided, however, that the expense incurred by said Co-inventors in providing such cooperation shall be paid for by said Assignee.

3. The terms and covenants of this Assignment shall inure to the benefit of said Assignee, its successors, assigns and other legal representatives, and shall be binding upon said Co-inventors, said Co-inventors' heirs, legal representatives and assigns.

4. Said Co-inventors hereby warrant and represent that said Co-inventors have not entered and will not enter into any assignment, contract, or understanding in conflict herewith.

IN WITNESS WHEREOF, the said Co-inventors have executed this instrument on the date as given below and delivered this instrument to said Assignee:
