This **PATENT ASSIGNMENT AGREEMENT** ("Patent Assignment"), made effective as of August 7, 2017, is made by **H PLUS TECHNOLOGIES LTD.**, a company incorporated under the laws of the Province of British Columbia ("Vendor") and **YU WEN**, an individual resident in the Province of British Columbia ("Purchaser"), the purchaser of certain assets of Vendor pursuant to an IP Purchase Agreement between Purchaser and Vendor, dated as of August 7, 2017 (the "**Asset Purchase Agreement**").

WHEREAS, under the terms of the Asset Purchase Agreement, Vendor has conveyed, transferred and assigned to Purchaser, among other assets, certain intellectual property of Vendor, and have agreed to execute and deliver this Patent Assignment, for registration with governmental authorities including, but not limited to, the Patent Office, Canadian Intellectual Property Office and the United States Patent and Trademark Office;

NOW THEREFORE, the parties agree as follows:

1. Assignment of Patents. For good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Vendor confirms it has conveyed, transferred and assigned, and does hereby irrevocably convey, transfer and assign to Purchaser, and Purchaser hereby accepts all of Vendor's right, title and interest in and to the following (the "**Assigned Patents**"):

(a) the patents and patent applications set forth in Schedule 1 hereto and all issuances, divisions, continuations, continuations-in-part, reissues, extensions, reexaminations and renewals thereof;

(b) all rights of any kind whatsoever of Vendor accruing under any of the foregoing provided by applicable law of any jurisdiction, by international treaties and conventions and otherwise throughout the world;

(c) any and all royalties, fees, income, payments and other proceeds now or hereafter due or payable with respect to any and all of the foregoing; and

(d) any and all claims and causes of action with respect to any of the foregoing, whether accruing before, on or after the date hereof, including all rights to and claims for damages, restitution and injunctive and other legal and equitable relief for past, present and future infringement, misappropriation, violation, misuse, breach or default, with the right but no obligation to sue for such legal and equitable relief and to collect, or otherwise recover, any such damages.

2. Recordation and Further Actions. Vendor hereby authorizes the Patent Office and the Commissioner for Patents in the United States Patent and Trademark Office, and the officials of corresponding entities or agencies in any other applicable jurisdictions, to record and register this Patent Assignment upon request by Purchaser. Following the date hereof, upon Purchaser's reasonable request, and at Purchaser's sole cost and expense, Vendor shall take such steps and actions, and provide such cooperation and assistance to Purchaser and its successors, assigns and legal representatives, including the execution and delivery of any affidavits, declarations, oaths, exhibits, assignments, powers of attorney, or other documents, as may be necessary to effect, evidence or perfect the assignment of the Assigned Patents to Purchaser, or any assignee or successor thereto.

3. Terms of the Asset Purchase Agreement. The parties hereto acknowledge and agree that this Patent Assignment is entered into pursuant to the Asset Purchase Agreement, to which reference is made for a further statement of the rights and obligations of Vendor and Purchaser with respect to the Assigned Patents. The representations, warranties, covenants, agreements and indemnities contained in the Asset Purchase Agreement shall not be superseded hereby but shall remain in full force and effect to the full extent provided therein. In the event of any conflict or inconsistency between the terms of the Asset Purchase Agreement and the terms hereof, the terms of the Asset Purchase Agreement shall govern.
