INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT

This INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT (this "Assignment") is made and entered into as of this 13th day of January, 2014, by and between TauTona Injector, LLC., a Delaware limited liability company and (the "Assignor"), on the one hand, and LifeCell Corporation, a Delaware corporation (the "Assignee"), on the other.

WITNESSETH:

WHEREAS, Assignor and Assignee are parties to an Asset Purchase Agreement dated as of January 13, 2014, pursuant to which Assignee has acquired all of Assignor's right, title and interest in and to the patents and patent applications listed on Schedule A hereto (all such patents and patent applications referred to collectively as the "Assigned Patents").

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Assignors and Assignee each hereby agree as follows:

1. Assignment. Assignor hereby sells, assigns, transfers, conveys and delivers to Assignee and its successors and assigns, and Assignee hereby purchases and accepts from Assignor, all of Assignor's right, title and interest in, to and under the Assigned Patents, including the right to file for continuations, continuations-in-part, divisionals, reexaminations and reissues thereof and foreign counterparts thereto, and all patents issuing therefrom, together with the right to sue and recover damages for future or past infringements of the Assigned Patents and to fully and entirely stand in the place of Assignor in all matters related thereto.

2. Further Assurances. Assignor agrees to execute and deliver such other documents and to take all such other actions as Assignee, its successors and assigns may reasonably request to effect the terms of this Assignment and to execute and deliver any and all affidavits, testimonies, declarations, oaths and other documentation as may be reasonably required to effect the terms of this Assignment. Assignee, or its successor or assign, as the case may be, shall be responsible for all costs incurred by Assignor in executing and delivering any of the foregoing.

3. Miscellaneous. This Assignment, and all claims or causes of action (whether at law, in contract or in tort) that may be based upon, arise out of or relate to this Assignment or the negotiation, execution or performance hereof, shall be governed by and construed in accordance with the laws of the State of New York without giving effect to conflicts of laws principles that would result in the application of the law of any other state. This Assignment may not be supplemented, altered or modified in any manner except by a writing signed by all parties hereto. The failure of any party to enforce any terms or provisions of this Assignment shall not waive any of its rights under such terms or provisions. This Assignment shall bind and inure to the benefit of the respective parties and their assigns, transferees and successors. This Assignment and any amendments hereto may be executed in one or more counterparts, each of which shall be deemed an original but all of which together will constitute one and the same instrument.
