ASSIGNMENT

I, for good and valuable consideration, receipt of which is hereby acknowledged, have assigned *nun pro tunc* at least as early as July 30, 2014, which confirms any previous assignment by me or by operation of law, to Aquaphor Production, a Russian corporation, having its principal place of business at 27a Pyonerskaya Street, Saint-Petersburg, 197110, Russia ("Assignee"), its successors, assigns, and legal representatives, the entire right, title, and interest, in and to all subject matter and improvements invented, made, or conceived by me and described in the application for patent entitled

HOLLOW-FIBER MEMBRANE DEVICE AND METHOD FOR THE PRODUCTION THEREOF

having Russian Patent Application Number 2014131717, filed July 30, 2014 and in International Patent Application Number PCT/RU2015/000325 filed May 26, 2015, and in and to all patent and all patent convention and treaty rights of all kinds, including the right to claim priority from said application, and all rights in and to any utility model, continuation, continuation-in-part, and divisional application therefrom, and any reissue or re-examination as to any patent issuing therefrom, in all countries throughout the world, for all such subject matter described therein, including all rights of action and rights to recover damages for past infringements.

I agree that on request and without further consideration, I will communicate to the Assignee or its representatives or nominees any facts known to me respecting the inventions and improvements and testify in any legal proceeding, make all rightful oaths, sign all lawful papers, and execute all instruments or documents required or requested for the making and prosecution of any applications of any type for patent, utility model, or other similar rights in all countries including, but not limited to, any

provisional, non-provisional, continuation, continuation-in-part, divisional, renewal or substitute thereof, for any derivation proceedings relating thereto, and, as to any patents that issue from such applications, for any supplemental examination, derivation proceeding, opposition, post grant review, reissue, re-examination, *inter partes* review, or extension thereof, and generally do everything possible to aid the Assignee, its successors, assigns, and nominees to obtain and enforce proper patent protection for the invention and its improvements in all countries.
