IN
PATENTS

United States Patent and Trademark Office

Ladies and Gentlemen:

Please be advised that pursuant to the Security Agreement dated as of June 10, 2016 (as the same may be amended, modified, restated or supplemented from time to time, the "Agreement" – capitalized terms used but not defined herein have the meanings ascribed therein) by and among the undersigned Obligor and the other obligors from time to time party thereto (each an "Obligor" and collectively, the "Obligors") and Branch Banking and Trust Company, as administrative agent and collateral agent (the "Collateral Agent"), the undersigned Obligor has granted a continuing security interest in, and a right to set off against, any and all right, title and interest of such Obligor in and to the Patents, including the patents and patent applications set forth on Schedule 1 attached hereto, to the Collateral Agent, for the benefit of the Secured Parties, to secure the prompt payment and performance in full when due, whether by lapse of time, acceleration, mandatory prepayment or otherwise, of the Secured Obligations.

The undersigned Obligor and the Collateral Agent, on behalf of the Secured Parties, hereby acknowledges and agrees that the security interest in the patents and patent applications set forth on Schedule 1 attached hereto (i) may only be terminated in accordance with the terms of the Agreement; (ii) is not to be construed as an assignment of any patent or patent application; and (iii) in the event of any conflict between the terms of this agreement and the terms of the Agreement, the terms of the Agreement shall govern. This notice may be executed in counterparts, each of which will be deemed an original, but all of which together constitute one and the same original.
