ASSIGNMENT OF PATENT APPLICATION

WHEREAS, I, **Jonathan B. Becker**, a citizen of the United States of America having a mailing address at 1935 Puddingstone Drive, LaVerne, California 91750 ("ASSIGNOR"), have invented a certain invention entitled **LOADOUT EXCHANGE SYSTEM**, for which a United States patent application is being filed on or about this same day;

WHEREAS, **AARDVARK**, a corporation organized and existing under and by virtue of the laws of the State of California and having its place of business at 1935 Puddingstone Drive, LaVerne, California 91750 ("ASSIGNEE"), is desirous of acquiring the exclusive right, title and interest in, to and under said invention and in, to and under any Patent or similar legal protection to be obtained therefore in the United States of America, its territorial possessions and in any and all countries foreign thereto.

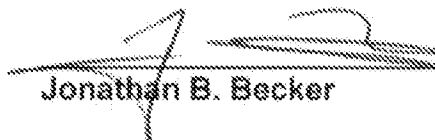

NOW, THEREFORE, for good and valuable consideration, the receipt of which is hereby acknowledged, ASSIGNOR hereby sells, assigns, transfers and sets over unto ASSIGNEE, its successors and assigns, the full and exclusive right, title and interest in and to said invention and to all Letters Patent or application or similar legal protection, not only in the United States and its territorial possessions, but in all countries foreign thereto to be obtained for said invention by said application, and to any continuation, division, regular non-provisional, renewal, substitute or reissue thereof or any legal equivalent thereof in the United States or a foreign country for the full term or terms for which the same may be granted, including all priority rights under United States laws and under any international convention or treaty, and including the right to sue for past royalties and past infringement, and ASSIGNOR hereby authorizes and requests the Commissioner of Patents and Trademarks to issue said Letters Patent or any legal equivalent thereof to ASSIGNEE, its successors and assigns, in accordance with this Assignment.

ASSIGNOR hereby covenants that no assignment, sale, agreement or encumbrance has been or will be made or entered into which would conflict with this Assignment;

ASSIGNOR further covenants that ASSIGNEE will, upon its request, be provided promptly with all pertinent facts and documents relating to said application, said invention and said Letters Patent and legal equivalents as may be known and accessible to

ASSIGNOR and that ASSIGNOR will testify as to the same in any administrative proceeding or litigation related thereto and will promptly execute and deliver to ASSIGNEE or its legal representative any and all papers, instruments or affidavits required to apply for, obtain, maintain, issue and enforce said application, said invention and said Letters Patent and said equivalents in the United States or in any foreign country, which may be necessary or desirable to carry out the purposes thereof.
