ASSIGNMENT OF INVENTION AND PATENT APPLICATION

Docket Number: EDG_P0031

This assignment made by (1) Andrew Lientz of Culver City, California, (2) Alexander A. Kazerani of Santa Monica, California and (3) James Segil of Santa Monica, California (collectively hereinafter ASSIGNORS) to Edgecast Networks, Inc., a California corporation, having a place of business at 2850 Ocean Park Blvd., Suite 110, Santa Monica, California 90405 (hereinafter ASSIGNEE). ASSIGNORS believe themselves to be the original, first, and joint inventors of the Invention entitled "End-to-End Content Delivery Network Incorporating Independently Operated Transparent Caches and Proxy Caches" for which an application for United States patent was filed on 7/3/2012 having application serial number 13/541,605 further identified by attorney docket number EDG_P0031.

For good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, ASSIGNORS hereby sell, assign, transfer, and set over unto ASSIGNEE 100% of the following:

- (A) ASSIGNORS' right, title, and interest in and to the Invention entitled "End-to-End Content Delivery Network Incorporating Independently Operated Transparent Caches and Proxy Caches" invented by ASSIGNORS;
- (B) the application for United States patent filed on 7/3/2012 having application serial number 13/541,605 further identified by attorney docket number EDG_P0031;
- (C) any patent or reissues of any patent that may be granted thereon; and
- (D) any applications which are continuations, continuations-in-part, substitutes, or divisions of said application.

ASSIGNORS hereby further sell, assign, transfer, and set over unto ASSIGNEE, the above percentage of ASSIGNORS' entire right, title, and interest in and to said Invention in each and every country foreign to the United States; and ASSIGNORS further convey to ASSIGNEE the above percentage of all priority rights resulting from the above-identified application for United States patent. ASSIGNORS agree to execute all papers, give any required testimony, and perform other lawful acts, at ASSIGNEE'S expense, as ASSIGNEE may require to enable ASSIGNEE to perfect ASSIGNEE'S interest in any resulting patent of the United States and

countries foreign thereto, and to acquire, hold, enforce, convey, and uphold the validity of said patent and reissues and extensions thereof, and ASSIGNEE'S interest therein.

ASSIGNORS represent and warrant that they have not granted and will not grant to others any rights inconsistent with the rights granted herein. ASSIGNORS authorize and request the Commissioner of Patents and Trademarks of the United States and of all foreign countries to issue any patent granted for said Invention(s), whether on another patent or other application for said Invention, on said Patent Application, or on any subsequently-filed provisional, non-provisional, regular utility, divisional, continuation, continuation-in-part, reissue, international, or other patent application or other application, to ASSIGNEE, its successors and assigns, as the assignee of the entire interest in said Invention.
