ASSIGNMENT OF PATENT / APPLICATION	Docket Number ST-65
---	-------------------------------

Whereas, We, the undersigned, herein referred to as the “PATENTEE(S)/APPLICANT(S)”, have contributed to the conception or development of certain new and useful improvements, herein referred to as the “INVENTION”, in:

US Application No. 15/720,879 **filed on** September 29, 2017, entitled Tilttable Cart

Whereas, INGURAN, LLC hereinafter referred to as “ASSIGNEE” located at 22575 State Highway 6 South, Navasota, Texas 77868 US, is desirous of acquiring the entire right, title and interest in the same;

Now, therefore, in consideration of the sum of ten dollars (\$10.00), the receipt whereof is acknowledged, and other good and valuable consideration, We, the PATENTEE(S)/APPLICANT(S), by these presents do **SELL**, **ASSIGN** and **TRANSFER** unto said ASSIGNEE the full and exclusive worldwide right, title and interest to the said Invention and any and **ALL IMPROVEMENTS** in the Invention, which are previously or subsequently made or acquired by me/us and the entire right, title and interest in and to any and all Patents which may be granted pursuant to international treaty, and all divisional, continuing, continuation-in-part, substitute, renewal, reissue and other **DOMESTIC** or **FOREIGN** applications for patent which have been or shall be filed in the United States and/or all other countries.

We hereby authorize and request the United States Patent and Trademark Office and any appropriate office in all countries foreign to the United States, to issue any and all such Patent(s) granted on such **IMPROVEMENTS** to said ASSIGNEE, of the entire right, title, and interest in and to the same, for his sole use and benefit; and for the use and benefit of his legal representatives, to the full end of the term for which said Patent(s) may be granted.

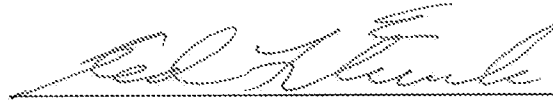

We warrant and covenant that no assignment, grant, mortgage, license or other agreement affecting the rights and property herein conveyed has been or will be made to others by the undersigned, and that the full right to convey the same as herein expressed is possessed by the undersigned.

We warrant and covenant at the time of signing this assignment the undersigned neither knows nor has reason to know of any outstanding right, title, or interest in the Invention inconsistent with a full assignment of rights to the ASSIGNEE other than the right, title, or interest which may exist as a result of coinventorship by another person.

We covenant that when requested and at the expense of the ASSIGNEE, to carry out in good faith the intent and purpose of this Assignment, the undersigned will execute and deliver to the ASSIGNEE all divisional, continuing, continuation-in-part, substitute, renewal, reissue, and all other patent applications on any and all improvements, execute and deliver to the ASSIGNEE all rightful oaths, declarations, assignments, powers of attorney and other papers, communicate to the ASSIGNEE all facts known to the undersigned relating to such improvements and the history thereof, and will testify in any legal proceeding, sign all lawful papers, and generally do everything possible which the ASSIGNEE shall consider desirable for vesting title in the Invention and related improvements in the ASSIGNEE, and for securing, maintaining and enforcing proper patent protection for the Invention and such improvements.

Said assignment is to be binding on the heirs, assigns, representatives and successors of the undersigned and extend to the successors, assigns and nominees of the ASSIGNEE. In the event any provision of this

Assignment is found to be unenforceable, or to be unreasonable in scope, such provision shall be modified to the extent necessary to make it enforceable, and so modified the Assignment shall remain in full force and effect.
