UNITED STATES

ASSIGNMENT

This Assignment is made as of April 20, 2015, by and between Synergy Biosurgical AG, a company organized under the laws of Switzerland whose address is c/o Confidas Treuhand AG, Industriestrasse 9, 6300 Zug, Switzerland (hereinafter "Assignor") and Medacta International S.A., a Swiss company with a principal place of business at Strada Regina, 6874 Castel San Pietro, Ticino, Switzerland (hereinafter "Assignee").

WHEREAS, Assignor is the owner of the entire right, title and interest in and to the patents and patent applications listed in Schedule A; and

WHEREAS, the Assignee is desirous of acquiring said patents and patent applications;

NOW, THEREFORE, for good and valuable consideration, receipt of which is hereby acknowledged, said Assignor hereby irrevocably assigns, transfers and conveys to the Assignee, its successors, assigns or other legal representatives, all rights, title and interest in and to the said patents and patent applications, including without limitation: (i) the patents listed in Schedule A including the inventions that are the subject of those patents; (ii) the patent applications listed in Schedule A and, where patents are granted in respect of such patent applications, such granted patents including the inventions that are the subject of those patent applications and patents; (iii) any and all patents or patent applications which claim priority from the patents or the patent applications listed in Schedule A as far as such right, title and interest exists for the Assignor; (iv) any applications for divisional applications, continuations, continuations-in-part, re-examinations, reissues, PCT applications, convention applications, all foreign counterparts, and patents resulting from those applications, where the applications are made in respect of the inventions that are the subject of the patents and patent applications described in (i), (ii), and (iii) immediately above as far as such right, title and interest exists for the Assignor; (v) all claims for damages or other remedies in respect of any infringement or any of the patents before as well as after the date of this Assignment with the right to sue and collect for its own use and benefit and for the use and benefit of its successors and assigns, and (vi) all right, title and interest in and to the patent applications and all rights, powers and privileges arising or accrued there from with intent that the grant of patents pursuant to the patent applications shall be in the name of and shall vest in the Assignee.
