(b) all rights of any kind whatsoever of Assignor accruing under any of the foregoing provided by applicable law of any jurisdiction, by international treaties and conventions and otherwise throughout the world;

(c) any and all royalties, fees, income, payments and other proceeds now or hereafter due or payable with respect to any and all of the foregoing; and

(d) any and all claims and causes of action, with respect to any of the foregoing, whether accruing before, on and/or after the date hereof, including all rights to and claims for damages, restitution and injunctive and other legal and equitable relief for past, present and future infringement, misappropriation, violation, misuse, breach or default, with the right but no obligation to sue for such legal and equitable relief and to collect, or otherwise recover, any such damages.

2. Right to Convey. Assignor hereby covenants that it has the full right to convey the entire interest herein assigned, and that it has not executed, and will not execute, any agreement in conflict with this Patent Assignment.

3. Recordation and Further Actions. Assignor authorizes the Commissioner for Patents and any other governmental officials to record and register this Patent Assignment upon request by Assignee. 4. Further Assurances. Assignor hereby agrees, for a period of three (3) years following the date hereof, to perform, upon the request of Assignee, such acts as Assignee in its sole discretion determines may be reasonably necessary or desirable to transfer, perfect, and defend Assignee's rights related to the Assigned Patents, including Assignee's ownership of the Assigned Patents. Notwithstanding the foregoing, Assignee hereby agrees to either reimburse or advance payment to Assignor, at Assignor's election, for all reasonable expenses incurred or all expenses reasonably anticipated to be incurred by Assignor in complying with the requirements of this section.
