ASSIGNMENT OF PATENT APPLICATION BY INVENTOR

Whereas I, an undersigned inventor (hereinafter "INVENTOR"), have invented certain new and useful improvements as set forth in the patent application entitled:

AUGMENTED REALITY GAMING SYSEMS AND METHODS

☒ for which I have executed a U.S. patent application on even date herewith.

☒ which bears U.S. application serial No. 14/478,901, filed September 5, 2014

☐ for which I have executed a patent application in the country of _____ on even date herewith.

☐ which I have executed a U.S. provisional application on even date herewith.

☐ which is a U.S. provisional application which bears U.S. application serial No. _____ filed _____.

For good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, I, an undersigned inventor, hereby:

(a) Sell, assign and transfer to Trigger Global Inc., a Corporation having a place of business at 2237 Corinth Avenue, Los Angeles, California 90064 (hereinafter "ASSIGNEE"), (1) the entire right, title and interest, and any and all revenues and rights to revenue, for any purpose, associated with commercialization, everywhere in the world, to (A) any and all inventions described in said Application, (B) said Application, (C) any patent that may be granted thereon, (D) any patent applications or patents which may claim priority of (or serve as the basis for a priority claim by) said Application (including but not limited to continuations, divisions, continuations-in-part, substitutes, reissues, reexaminations or extensions thereof, together with all priority rights and counterpart applications anywhere in the world under any existing or future international patent conventions, agreements or treaties), and;(2) the right to sue third parties for patent infringement (including but not limited to damages) accruing based on activities occurring prior to the execution date hereof.

(b) Authorize and request the relevant patent authority anywhere in the world to issue any and all patents resulting from said application or any division, continuation, substitute, renewal, re-examination or reissue thereof, in any jurisdiction, to the ASSIGNEE.

(c) Agree to execute all papers and documents needed to effectuate the rights granted herein, and hereby grant ASIGNEE a power of attorney to execute any such papers and documents should I refuse to do so; to communicate to the ASSIGNEE any facts known to me respecting the improvements; to testify in any legal proceeding; sign all lawful papers, execute all divisional, continuing and reissue applications, make all rightful oaths and generally perform any acts which are reasonably necessary in connection with the prosecution of said application anywhere in the

world as well as any derivative, continuing, divisional applications thereof, foreign applications based thereon, and/or the enforcement of patents resulting from such applications.

(d) Warrant and covenant that no other assignment, license, contract, understanding, interest or other grant to any third party with respect to any of the foregoing has been made, or shall in the future be made, by or on behalf of INVENTOR.

(e) Covenant not to challenge the validity or enforceability of any of the patent applications or patents assigned to ASSIGNEE hereunder.

(f) Agree that the terms, covenants and conditions of this assignment shall inure to the benefit of the ASSIGNEE, its successors, assigns and other legal representatives, and shall be binding upon the INVENTOR, as well as the INVENTOR's heirs, legal representatives and assigns.

(g) Authorize and request the attorney/agent responsible for recordal to insert above the application number in order to assist with recordal of this assignment or any other information necessary to perfect this assignment.
