1. Assignor authorizes and requests the attorneys appointed in said application to hereafter complete this assignment by inserting above the filing date and serial number of said application when known.
2. Assignor represents that it is the sole owner of the patent application listed above (the "Patent Application") and of all new and useful inventions and improvements that are disclosed in the Patent Application (the "Inventions"). The Patent Application and the Inventions are collectively referred to as the "Patent Assets."

3. Assignor hereby assigns to Assignee its entire right, title, and interest in and to the Patent Assets, including the right to file and prosecute, in its own name wherever so permitted by law or in the name of Assignee wherever necessary, patent applications, including corresponding and continuing applications, reissues, re-examinations, certificates of invention, and the like based on any of the Patent Assets, and to claim priority to the Patent Application pursuant to the International Convention for the Protection of Industrial Property, the Patent Cooperation Treaty, the European Patent Convention, and all other treaties of like purposes. Assignor acknowledges receipt of fair and adequate consideration for this Assignment.
4. Assignor shall, when requested by Assignee, (i) execute or cause to be executed all rightful oaths, assignments, and powers of attorney to Assignee or to agents and legal representatives of Assignee, and all other papers necessary and proper to carry out the intent and purpose of this Assignment, (ii) execute all papers necessary in connection with the Patent Application, and any continuing, divisional, reissue, reexamination or other corresponding application thereof or post-grant proceeding relating thereto and to execute any separate assignment in connection with any such application as Assignee may deem necessary or expedient; and (iii) perform all affirmative acts that may be necessary to obtain a grant of a valid patent to Assignee on any of the Inventions.
5. Assignor hereby assigns to Assignee all of Assignor's the right to pursue, collect, and retain in the Assignee's name or otherwise, damages and any other remedies arising from any past, present, or future infringement of the Patent Assets and any other rights assigned by this Assignment.
6. Assignor represents that Assignor has the full right to convey the interests assigned by this Assignment, and that Assignor has not executed and will not execute any agreement in conflict with this Assignment.
7. This Assignment is binding upon and inures to the benefit of the successors and assigns of the parties.

8. This Assignment does not affect the parties' respective rights, title, or interest in or to any non-U.S. patent applications, patents, utility models, design registrations or the like.

The Assignor hereby executes this Assignment.
