This **ASSIGNMENT OF PATENTS** (this "**Assignment**"), dated as of 1st October 2017 ("**Effective Date**"), is by and between Kingtime International Limited (Registration No. 1434681), a company incorporated in Singapore whose place of business is at 80 Raffles Place #16-20, UOB Plaza 2 Singapore 048624 ("**Assignor**") and De Raj Energy Sdn. WHEREAS, Assignor has been issued certain patents and/or filed for granting of certain patents with the registrar of patents in the jurisdictions denominated in Schedule A attached ("**Assigned Patents**"); and

WHEREAS, Assignor has agreed to sell convey, assign and transfer to Assignee, all of Assignor's right, title, and interest in and to the Assigned Patents.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, and intending to be legally bound, the Parties agree as follows:

1. Conveyance. Assignor does hereby sell, convey, assign and transfer to Assignee, all of Assignor's right, title and interest in and to (i) the Assigned Patents, and all renewals, related continuations, continuations-in-part, divisional, reissues, re-examinations, substitutions and extensions thereof, and (ii) all benefits, privileges, causes of action and remedies relating thereto throughout the world, including, without limitation, all of Assignor's rights to: (a) apply for and maintain all registrations, renewals and/or extensions thereof; (b) claim priority under applicable law or international convention; (c) bring actions and recover damages for past, present and future infringement or other violation thereof; and (d) grant licenses or other interests therein; provided, however, that this Assignment shall not constitute an assignment to the extent that, if it were to sell, convey, assign or transfer an interest in and to the Assigned Patents, it would impair the subsequent lawful and effective execution and recordation of a necessary country-specific form of assignment.

2. Recordation. Assignor hereby authorizes and requests the registrar of patents or the applicable governmental entity or registrar (including any applicable foreign or international office or registrar) to record Assignee as the owner of the Assigned Patents and to issue any and all Assigned Patents to Assignee, as assignee of Assignor's entire right, title and interest in, to

3. Further Assurances. Assignor shall provide Assignee, its successors, assigns or other legal representatives, reasonable cooperation and assistance at Assignee's request and expense (including the execution and delivery of any and all affidavits, declarations, oaths, exhibits, assignments, powers of attorney or other documentation as may be reasonably required) as are requested by Assignee to effect, register, maintain, defend, enforce or otherwise exploit the rights assigned herein, including (a) the preparation and prosecution of any applications or registrations assigned herein; and (b) the prosecution or defense of any interference, opposition, reexamination, reissue, infringement or other proceedings that may arise in connection with any of the rights assigned herein, including, but not limited to, testifying as to any facts relating to the rights assigned herein. If Assignee is unable for any reason, after reasonable effort, to secure the Assignor's signature on any document needed in connection with the actions specified above, Assignor hereby irrevocably designates and appoints Assignee and its duly authorized officers and agents as its agent and attorney in fact, which appointment is coupled with an interest, to act for and in its behalf to execute, verify and file any such documents and to do all other lawfully permitted acts to further the purposes of this Section 3 with the same legal force and effect as if executed by the Assignor.

4. Amendment and Modification. This Agreement may be amended, modified, or supplemented at any time by the Parties, but only by an instrument in writing signed on behalf of the Parties.

5. Successors and Assigns. This Assignment shall inure to the benefit of and be binding upon the Parties hereto and their respective successors and permitted assigns.

6. Counterparts. This Agreement may be signed in any number of counterparts, each of which shall be an original, with the same effect as if the signatures thereto and hereto were upon the same instrument. This Agreement shall become effective when each Party shall have received a counterpart hereof signed by the other Party. For the convenience of the Parties, any number of counterparts hereof may be executed, each such executed counterpart shall be deemed an original, and all such counterparts together shall constitute one and the same instrument. Facsimile transmission (including the e-mail delivery of documents in Adobe PDF format) of any signed original counterpart and/or retransmission of any signed facsimile transmission shall be deemed the same as the delivery of an original.
