**ASSIGNMENT**

Whereas, We, Mahendra Mandava, Robert S. Gammenthaler, Russell D. Kautz, Steven F. Hocker, Robert E. Jordan, and David L. Kautz, have invented certain new and useful improvements in “ABSOLUTE SPEED DETECTOR” for which U.S. Provisional Application No. 62/535,711 was filed July 21, 2017 and for which a patent application was filed on October 25, 2017 and assigned Serial No. 15/793,623 (and for which we authorize counsel of record to provide the filing date and serial number);

Whereas, APPLIED CONCEPTS, INC. (hereinafter referred to as “ASSIGNEE”), with an address at 855 E. Collins Blvd., Richardson, Texas 75081-2251, is desirous of acquiring our entire right, title and interest in and to the said invention, and to the said applications and any Letters Patent that may issue thereon;

NOW, THEREFORE, for good and valuable consideration, the receipt of which is hereby acknowledged, we do hereby sell, assign, and transfer unto said ASSIGNEE, its successors, assigns and legal representatives, our entire right, title and interest in and to said invention and in and to said applications and all patents which may be granted therefor, and all divisions, reissues, reexaminations, substitutions, continuations, and extensions thereof, and we hereby authorize and request the Commissioner for Patents and Trademarks to issue all patents for said invention, or patent resulting therefrom, insofar as our interest is concerned, to said ASSIGNEE as assignee of our entire right, title and interest.

We also hereby sell and assign to said ASSIGNEE, its successors, assigns and legal representatives, our foreign rights to the invention disclosed in said application, in all countries of the world, including the right to file applications and obtain patents, utility models, industrial models and designs for said invention in its own name throughout the world including all rights of priority, all rights to publish cautionary notices reserving ownership of said invention and all rights to register said invention in appropriate registries; and we further agree to execute any and all powers of attorney, applications, assignments, declarations, affidavits, and any other papers in connection therewith necessary to perfect such rights, title and interest in ASSIGNEE, its successors, assigns and legal representatives.

We hereby warrant and covenant that no assignment, grant, mortgage, license or other agreement affecting the rights and property herein conveyed has been or will be made to others and that the full right to convey the same as herein expressed is possessed by us.

We hereby further agree that we will communicate to said ASSIGNEE, or to its successors, assigns and legal representatives, any facts known to us respecting any improvements; and, at the expense of said ASSIGNEE, to testify in any legal proceedings, sign all lawful papers, execute all divisional, continuation, continuation-in-part, reissue, reexamination, and substitute applications, and make all lawful oaths, and generally do everything possible to vest title in said ASSIGNEE and to aid said ASSIGNEE, its successors, assigns and legal representatives to obtain and enforce proper protection for said invention and any improvements in all countries.
