**PATENT APPLICATION ASSIGNMENT**

WHEREAS, We, Ronald B. Hicks and Sarah C. Harkleroad ("Assignors"), declare that we are original joint inventors of the "Control Panel User Interface" invention described in the attached invention disclosure, unfiled patent application, or patent application filed with the U.S. Patent and Trademark Office on October 25, 2017, and assigned Application No. 29/623,729 ("Application").

WHEREAS, HerdX, Inc., a Texas corporation ("Assignee"), located at 616 E Blanco Road, Suite 201B, Boerne, TX 78006, desires to obtain the entire right, title, and interest in and to the described invention and Application.

THEREFORE, in consideration of Ten Dollars and other valuable consideration, the receipt and sufficiency whereof is hereby acknowledged, Assignors hereby irrevocably assign to Assignee the entire right, title, and interest in the invention and Application, including, without limitation, any continuations, continuations-in-part, divisionals, extensions, reissues, parents, substitutions, utility models, designs, and any other intellectual property protections, claims or grants of rights which may have been or may be now or in the future be filed, obtained, derived, claimed priority from, based on, or asserted for the Application and any of its described inventions (collectively, "Property"); and inventions useful for commercializing or competitive with the Property; all in any country or countries; together with any past, present or future claims, causes of action and rights to compensation related to the Property, and the right to file such patents and claim all possible priority rights derivable from the Property under the Patent Laws of the United States, the International Convention for the Protection of Industrial Property, the Patent Cooperation Treaty, any other international agreement, and the laws of any country, reserving no rights to Assignor.

Assignors agree, promise and warrant that they have the full right to convey the entire interest assigned; they have not executed, and will not execute, any agreement in conflict with this Agreement; they will communicate to Assignee all facts known to Assignors relating to the Property, to the best of Assignors' current actual knowledge; the Application's claimed rights are valid and enforceable; Assignors will testify in any legal proceeding related to the Property, sign all lawful papers, execute all declarations and divisional, continuation, continuation-in-part, and reissue applications, make all rightful oaths, communicate, confer, and cooperate with Assignee, and do everything useful to help Assignee perfect its interest in and obtain and enforce all protections potentially deriving from the Property in all countries and to exclusively obtain all benefits therefrom. Assignors agree that at Assignee's election, after giving or attempting to give notice to Assignors, Assignee may delegate any person to execute as Assignors' agent any documents useful for these purposes.

Assignors authorize and request the Commissioner for Patents of the United States, and any officials of any countries or international agencies, whose duty it is to receive or issue patents or other forms of intellectual property protection, to issue same to Assignee in accordance with this agreement. Assignor hereby acknowledges that any willful false statement made herein is punishable under 18 U.S.C. 1001 by fine or imprisonment of not more than five years, or both.

The rights and obligations of the parties hereto extend and inure to the benefit of, and extend and are binding on, the parties and their respective heirs, successors, representatives, transferees and assigns. This Agreement will be governed by and construed in accordance with Texas law. This is the entire agreement between the parties concerning its subject matter. It will be interpreted and construed in accordance with its fair meaning and not for or against either party.

Assignors grant Assignee and in particular Assignee's attorneys of record of any patent application based in whole or in part on the attached invention disclosure or patent application, the power to insert into this Assignment the filing date and application number of the Application(s) after they are filed as further identification of them in order to comply with the rules of the United States Patent and Trademark Office or other governments concerning recordation of this Assignment.

Signed this 25 day of OCTOBER, 2017.
