ASSIGNMENT

This Patent Assignment is made

BETWEEN:

Heiko SCHILLING, a German citizen residing at 24 St Marys Road, Harborne, Birmingham,
United Kingdom;

(the "Inventor", hereinafter referred to as the "Assignor");

AND:

TomTom International B.V. De Ruijterkade 154, 1011AC Amsterdam, Netherlands;
(the "Assignee").

WHEREAS, the Inventor, during the course of his employment with the Assignee, has
invented:

METHODS AND SYSTEMS FOR GENERATING ROUTING POLICIES AND ROUTES

Docket ID No. 1074/GB

and in respect of which has been filed:

United Kingdom Patent Application No. GB1503227.9 on 26 February 2015.

WHEREAS, the Assignee is desirous of acquiring all right, title, and interest in and to the
invention(s) as set forth in the aforementioned applications and the applications themselves.

NOW, THEREFORE, for good and valuable consideration, the receipt and adequacy
of which is hereby acknowledged, the Assignor confirms any prior assignment to the
Assignee and the right of the Assignee to file the aforementioned patent applications, such
as by virtue of employment, and to the extent that the Assignor has not already done so,
agrees to assign, and hereby does, sell, assign and transfer unto the Assignee and its
successors in interest, the full and exclusive right, title and interest in any country of the
world, including the right to claim priority under the laws of the United States, the Paris
Convention, and any foreign countries, to the invention(s) as described in the

aforementioned patent applications, to the patent applications themselves, and all divisions, continuations, continuations-in-part, national phase applications or other applications claiming priority directly or indirectly from the aforementioned applications, and any patents, registered designs, utility models, or other similar rights which may be granted thereon, including reissues, reexaminations and extensions thereof, and all copyright and unregistered design rights throughout the world in the aforesaid application and the subject matter disclosed therein, these rights, title and interest to be held and enjoyed by the Assignee to the full end of the term for which the patents, utility models, or other similar rights, are granted and any extensions thereof as fully and entirely as the same would have been held by the Assignor had this assignment not been made, and the right to sue for, and recover for past, present and future infringements of, or liabilities for, any of the rights relating to any of the applications, patents, registered designs, utility models, or other similar rights, resulting therefrom, and the copyright rights;

the Assignor hereby covenants and agrees to execute all instruments or documents required or requested for the making and prosecution of any applications of any type for patent, utility model, or other similar rights, and for copyright, in any country of the world including, but not limited to, any provisional, continuation, continuation-in-part, divisional, renewal or substitute thereof, and as to letters patent any reissue, re-examination, or extension thereof, and for litigation regarding, or for the purpose of protecting title in and to the invention(s), the applications and patents in respect thereof, and to testify in support thereof, for the benefit of Assignee without further or other compensation than that above set forth; and

the Assignor hereby covenants and agrees to allow any information in respect of the aforementioned application(s), including the application number and filing date, to be inserted above (after the execution of the Assignment) once such information is known.

The Assignment is executed as of the date(s) given below:
