EXHIBIT C

CONFIRMATORY ASSIGNMENT OF PATENT RIGHTS

THIS CONFIRMATORY ASSIGNMENT OF PATENT RIGHTS (the “**Assignment**”) is entered into an executed between Smoke Sensor Technologies LLC, a California Limited Liability Company having a place of business at 90 East Halsey Road, Suite 202B, Parsippany NJ 07054 (“**Assignor**”), and Google Inc., a Delaware corporation with its principal place of business at 1600 Amphitheatre Parkway, Mountain View, CA 94043 (“**Assignee**”), pursuant to the Patent Purchase Agreement having an Effective Date of even date herewith (the “**Agreement**”) between Assignor and Assignee. Capitalized terms used herein and not expressly defined shall have the meaning ascribed to such terms in the Agreement.

“**Affiliate**” means, with respect to an entity, any other entity, in whatever country organized, that controls, is controlled by or is under common control of such entity, but only for so long as such control exists. The term “control” means possession, direct or indirect, of the power to direct or cause the direction of the management and policies of an entity, whether through the ownership of voting securities, by contract or otherwise.

“**Listed Patents**” means the provisional patent applications, patent applications, and patents listed on **Exhibit A**.

“**Subject Patents**” means, all (a) Listed Patents; (b) patents or patent applications (i) to which any of the Listed Patents claims priority, (ii) for which any of the Listed Patents forms a basis for priority now or in the future, (iii) that have a priority claim in common with any of the Listed Patents, (iv) that were co-owned applications that incorporate by reference, or are incorporated by reference into, any of the Listed Patents, and/or (v) which are subject to a terminal disclaimer with any of the Listed Patents; (c) any patents issuing anywhere in the world from any of the patent applications in any of the foregoing categories (a) and (b); (d) reissues, substitutes, reexaminations, extensions, continuations, continuations in part, continuing prosecution applications, requests for continuing examinations, divisions, and registrations of any item in any of the foregoing categories (a) through (c); (e) national (of any country of origin) and multinational patents, patent applications and counterparts relating to any item in any of the foregoing categories (a) through (d), including certificates of invention and utility models; (f) rights provided by multinational treaties or conventions for any item in any of the foregoing categories (a) through (e); and (g) any items in any of the foregoing categories (b) through (f) whether or not expressly listed as Listed Patents and whether or not claims in any of the foregoing have been rejected, withdrawn, cancelled, or the like.

NOW, THEREFORE, TO ALL WHOM IT MAY CONCERN:

For good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Assignor hereby acknowledges and confirms that, under the Agreement, Assignor has irrevocably sold, assigned, transferred and conveyed (or to the extent deemed necessary under applicable law, does hereby irrevocably sell, assign, transfer and convey) unto said Assignee, effective as of the above-indicated Effective Date of the Agreement, and Assignee hereby confirms Assignee’s acceptance of, all of Assignor’s right, title, and interest (i) in and to the Subject Patents, the same to be held and enjoyed by said Assignee for its own use, and for the use of its successors, assigns, or other legal representatives to the end of the term or terms for which said Subject Patents may be granted as fully and entirely as the same would have been held and enjoyed by Assignor if the Assignment had not been made; (ii) in and to all causes of action (whether known or unknown, accrued or unaccrued, or whether currently pending, filed or otherwise), provisional rights and other enforcement rights under, or on account of, any of the Subject Patents, including all rights to pursue damages, injunctive relief and other remedies of any

kind (including based on provisional rights) for past, current and future infringement of the Subject Patents; and (iii) to apply in any and all countries of the world for patents; certificates of invention or other governmental grants for the Subject Patents, subject to the rights under the Subject Patents granted to Assignor and retained by certain third parties to the extent set forth in the Agreement. Assignor also hereby authorizes the respective patent office or governmental agency in each jurisdiction to issue any and all patents or certificates of invention that may be granted upon any of the Subject Patents in the name of Assignee, as the assignee to the entire interest therein. Notwithstanding anything to the contrary herein, Assignor is executing and delivering this Assignment in accordance with and subject to all of the terms and provisions of the Agreement. In the event of any conflict between the terms of this Assignment and those of the Agreement, the terms of the Agreement will be controlling. This Assignment will be binding upon and will inure to the benefit of the parties and their respective successors and assigns. This Assignment will be governed by, and construed in accordance with, the laws of the United States in respect to patent issues and in all other respects by the laws of the State of California, without reference to its choice of law principles to the contrary.

IN WITNESS WHEREOF, Assignor has caused this Assignment to be executed as of the date indicated below.
