PATENT ASSIGNMENT

WHEREAS, Acentech Incorporated ("Assignor") and Cambridge Sound Management, LLC ("Assignee") have agreed that Assignee shall own and hold all right, title, and interest in, to and under the patents, provisional applications and patent applications (including originals, divisions, continuations, continuations-in-part, extensions, reissues and reexams, domestic or foreign), set forth on Exhibit A attached hereto and made a part hereof (hereinafter the "Transferred Patents").

NOW, THEREFORE, in consideration of the foregoing, as well as for other good and valuable consideration, the receipt of which is hereby acknowledged:

1. Assignor hereby sells, assigns, transfers and sets over to Assignee, its successors and assigns, Assignor's entire right, title and interest in, to and under the Transferred Patents, including all such Letters Patent of the United States which have been or shall be granted on any of the Transferred Patents, and all corresponding foreign patents and applications, the same to be held and enjoyed by Assignee for its own use and enjoyment, and for the use and enjoyment of its successors, assigns or other legal representatives, to the end of the term or terms for which said Letters Patent are or may be granted or reissued, as fully and entirely as the same would have been held and enjoyed by Assignor if this assignment had not been made; and, together with all claims for damages by reason of past infringement of the Transferred Patents, with the right to sue for such damages, and collect the same for its own use and enjoyment, and for the use and enjoyment of its successors, assigns or other legal representatives.

2. Assignor agrees, for himself and each of his successors and assigns, to: (i) execute upon request any other lawful documents reasonably necessary to secure the grant of any rights hereunder in the United States and in all other countries to Assignee, its successors and assigns; and (ii) to perform, at Assignee's expense, any lawful act, such as providing testimony at an interference or other proceeding related to the Transferred Patents.

3. Assignor does hereby authorize and request the Commissioner of Patents of the United States and the equivalent officers of all foreign patent offices to issue any original or reissue Letters Patent which may be granted upon the Transferred Patents to Assignee, its successors and assigns.

This Patent Assignment (together with the Redemption Agreement, dated on or about the date hereof, between the Assignor and Assignee) constitutes the complete and final agreement between the parties regarding the transfer of Transferred Patents. This Assignment shall be effective as of August 7, 2013.
