Assignee

<i>Name</i>	<i>Address</i>
The ExOne Company	127 Industry Blvd., North Huntingdon, Pennsylvania 15642 US

Whereas, I/we, the above-identified Inventor(s) and Assignors, have invented certain new and useful improvements in the Invention identified above and described in the above-identified patent application(s) and/or patent(s) (hereinafter referred to as "Invention");

And, whereas I/we desire to assign our entire above-identified rights, title and interest in the Invention to the above-identified Assignee;

Now, this Assignment memorializes, that for good and valuable consideration, the receipt whereof is hereby acknowledged:

I/We, the above-identified Inventors and Assignors, hereby assign, sell and transfer my/our entire above-identified rights, title and interest in said Invention, in said application(s) as identified above, including any divisions, continuations, continuations-in-part, substitutes, and counterparts thereof in any and all countries and regional authorities, and in and to any and all Letters Patent of the United States and its territorial possessions, and countries foreign thereto, which may be granted or have granted for said Invention, and in and to any and all reissues and reexaminations thereof, and in and to any and all priority rights, Paris Convention rights, and rights under all other treaties and international arrangements, and any and all other benefits accruing or which may accrue to me/us with respect to the filing of applications for patents or securing of patents in the United States and its territorial possessions and countries foreign

And I/we hereby authorize and request the Patent Officials in the United States and in any and all countries foreign thereto to issue any and all of said Letters Patent, when granted or issued, for said Invention to said Assignee, as the assignee of the whole right, title and interest thereto;

Further, I/we agree that I/we will communicate to said Assignee or its representatives any facts known to me/us respecting said Invention, and testify in any legal proceeding, sign all papers, execute all divisional, continuation, continuation-in-part, substitute, counterpart, renewal and reissue applications, execute all necessary assignment papers to cause any and all of said Letters Patent to be issued to said Assignee, make all rightful oaths or declarations, and, generally do everything possible to aid said Assignee, its successors and assigns, to obtain and enforce protection for said Invention in the United States and its territorial possessions and in any and all countries foreign thereto, as the Assignee, its successors and assigns may from time to time request and prepare at Assignee's, its successor's, or its assigns' own expense.

This Assignment represents the entire agreement between/among me/we and the Assignee pertaining to the subject matter of this Assignment and supersedes any and all prior oral discussions and/or written correspondence or agreements between me/we and the Assignees with respect thereto. This Assignment is deemed to be made under and shall be construed in accordance with the laws of the Commonwealth of Pennsylvania, U.S.A, but shall not include any conflict of law rule that might direct or refer determination of any matter to the laws of any other jurisdiction.
