ASSIGNMENT

For good and valuable consideration, the receipt of which is hereby acknowledged, we, the undersigned inventors:

**Rami Aharoni
Ashish Ahuja
Zhangyi Zhong**

hereby sell, assign, and transfer to:

Meta Company

an organization having a principal place of business at 2855 Campus Drive, Suite 300, San Mateo, CA 94403, and its successors, assigns, and legal representatives (collectively hereinafter called "the Assignee"), the entire right, title, and interest throughout the world in and to the inventions and any and all improvements thereof which are the subject of the following United States non-provisional, utility patent application:

**APPARATUSES, METHODS AND SYSTEMS FOR MULTIPLE FOCAL DISTANCE
DISPLAY**

which was filed on October 19, 2016 as
United States Application Number 15/298,181, and

which has been executed by the undersigned prior hereto or concurrently herewith on the date(s) indicated below, and

in and to said application and divisional applications, continuation applications, continued prosecution applications, continuation-in-part applications, substitute applications, renewal applications, reissue applications, reexaminations, extensions, and all other patent applications, utility models, and design registrations that have been or shall be filed in the United States and all foreign countries on any of said inventions and any and all improvements thereof; and in and to all original patents, reissued patents, reexamination certificates, extensions, utility models, and design registrations, that have been or shall be issued in the United States and all foreign countries on said inventions and any and all improvements thereof; and in and to all rights of priority resulting from the filing of said United States provisional application including the right to claim priority based on the filing date of said application under the International Convention for the Protection of Industrial Property, the Patent Cooperation Treaty, the European Patent Convention, The Hague System for the International Registration of Industrial Designs, and all other treaties of like purposes;

agree that said Assignee may apply for and receive a patent or patents, registrations, and certificates for said inventions and any and all improvements thereof in our name or its own name; and agree for ourselves and our respective heirs, legal representatives and assigns, without further compensation and at Assignee's expense to execute all non-provisional applications, divisional applications, continuation applications, continued prosecution applications, continuation-in-part applications, substitute applications, renewal applications, reissue applications, reexaminations, extensions and all other patent applications, utility models, and design registrations on any and all said inventions and any and all improvements thereof; execute all rightful oaths, assignments, powers of attorney, and other papers; communicate to said Assignee all facts known to the undersigned relating to said improvements and the history thereof; and generally assist said Assignee in securing and maintaining proper patent protection for said improvements and for vesting title to said improvements, and all applications for patents and registrations, and all patents, utility models, and design registrations on said improvements, in said Assignee; and

covenant with said Assignee that no assignment, grant, mortgage, license, or other agreement affecting the rights and property herein conveyed has been made to others by the undersigned, and that full right to convey the same as herein expressed is possessed by the undersigned.
