Exhibit B
Form of Assignment Agreement

THIS ASSIGNMENT is made as of 7/17 2017 (the "Effective Date") by and between CONCEPT DESIGN INC a corporation existing under the laws of DELAWARE ("Purchaser") and TRANS-SEN D/A, INC. A CALIFORNIA corporation ("Seller").

WHEREAS in this Assignment, "Patents" means:

- (a) those patents and patent applications listed on Exhibit A to this Assignment;
- (b) all patents and patent applications owned by Seller or any affiliate of Seller to, from or through which any patent or patent application listed on Exhibit A claims priority;
- (c) all patents and patent applications owned by Seller or any affiliate of Seller that claim priority to, from or through any existing or abandoned patents or patent applications to, from or through which any patent or patent application described in Paragraphs (a) and (b) above; and
- (d) all patents and patent applications owned by Seller or any affiliate of Seller deriving from or having substantially the same specifications as any patent or patent application owned by Seller or any affiliate of Seller that claim priority to, from or through any existing or abandoned patents or patent applications to, from or through which any patent or patent application described in Paragraphs (a), (b) and/or (c) above, and any inventions disclosed in any such patent or patent application including all patents and patent applications owned by Seller or any affiliate of Seller claiming priority to, from or through, any such patent or patent application; in each such case including all:
 - (i) patents, patent applications, provisional applications, continuation applications, continuation-in-part applications, divisional applications, reissue patents, reexamination patents, design patents, design patent applications and patent extensions thereof owned by Seller or any affiliate of Seller relating to or having the substantially the same specifications as any patent or patent application described in Paragraphs (a), (b) and/or (c) above, any applications owned by Seller or any affiliate of Seller claiming priority to, from or through, any of the foregoing and all counterparts thereof; and
 - (ii) foreign patents, foreign patent applications, foreign counterparts including utility models and the like owned by Seller or any affiliate of Seller claiming priority to, from or through, or having the substantially the same specifications as any of the foregoing.

AND WHEREAS Seller owns all interest, right, title, property and benefit in and to each of the Patents and has agreed to assign all interest, right, title, property and benefit in and to each of the Patents to Purchaser;

NOW, THEREFORE, in consideration of good and valuable consideration, the receipt and sufficiency of which are hereby expressly acknowledged, Seller hereby sells, assigns, transfers, conveys and sets over to Purchaser (1) all of Seller's interest, right, title, property and benefit in and to each of the Patents, (2) the sole right to collect any damages for past, current and future infringement of each of the Patents to the extent not covered by license agreements or forbearances existing as of the date hereof that have been expressly disclosed to Purchaser prior to the date hereof and (3) the right to sue for past, current and future infringement of each of the Patents.

IN WITNESS WHEREOF, Seller has caused this Assignment to be executed effective as of the date first written above by its duly authorized officer.
