ASSIGNMENT

THIS ASSIGNMENT, is made by:

(1) **Richard D. Prohaska** residing at 264 Bartlett Circle NE, Cleveland TN, 37312; (2) **Rudy Beaty** residing at 2012 Laurel Springs Dr., Cleveland, TN 37311; and (3) **James W. Adams** residing at 227 Worley Mill Circle, Chatsworth, GA, 30705 (the "Assignors").

WHEREAS, the Assignors have invented certain new and useful improvements known as **METER PROBE APPARATUS**, set forth in an application for a United States Non-Provisional Application, filed on November 20, 2017, as **Application No. 15/817,900** (the "Application");

WHEREAS, as used here, the "Invention" means: (a) the Application; (b) any and all inventions which are disclosed and claimed in the Application; (c) any and all inventions which are disclosed but not claimed in the Application; (d) any all improvements, developments, and modifications to the invention deriving from the Application; (e) any and all continuations, continuations-in-part, requests for continued examination, and all other applications which claim priority to the Application, including but not limited to any and all applications filed pursuant to 37 C.F.R. 1.53; and (f) any and all provisional applications, continuations, continuing patent applications, and all other applications, including but not limited to those applications filed under 37 C.F.R. 1.53, to which the Application claims priority;

WHEREAS, **Eaton Corporation**, a corporation having its principal place of business at 1000 Eaton Boulevard, Cleveland, Ohio 44122, its successors and assigns (the "Assignees"), desires to acquire the entire right, title and interest in the Invention, and in any United States Patents obtained therefore and thereon;

WHEREAS, the Assignors hereby represents and warrants to the Assignees, its successors, legal representatives, and assigns, that, at the time of execution of this Assignment, except for any rights, titles and/or interests that have arisen to the Assignees under law or that have already been transferred to the Assignees, the Assignor is the sole and lawful owner of the entire right, title and interest in the Invention and the Application, and that the same is unencumbered and that the Assignors have good and full right and lawful authority to convey the same as expressed in this Assignment;

WHEREAS, the Assignors acknowledge an obligation to assign the Invention to the Assignees at the time that the Invention was made;

NOW, for good and valuable consideration received from the Assignees, receipt and sufficiency of which is hereby acknowledged, the Assignors assign and transfer to the Assignees, the Assignors entire right, title and interest in the Invention, and all United States Patents which may be granted on the Invention, and all reissues, reexaminations and extensions on the Invention, and all priority rights under all available International Agreements, Treaties and Conventions in every participating country, and all applications for patents (including related rights such as utility-model registrations, inventor's certificates, and the like) filed for the Invention in any foreign countries, and all patents granted for the Invention in any foreign

countries, and all reissues, reexaminations and extensions on the Invention in any foreign country; the Assignors assign and transfer to the Assignees the right to file applications on the Invention in the United States and all foreign countries, and the Assignors authorize and requests the United States Commissioner of Patents and Trademarks, and any officials of foreign countries whose duty it is to issue patents, to issue all patents for the Invention to the Assignees in accordance with the terms of this Assignment;

AND, for the same consideration, the Assignors covenant that when requested, without charge to, but at the expense of, the Assignees, to carry out in good faith the intent and purpose of this Assignment; the Assignors will disclose all facts known to the Assignors relating to the Invention and its history; the Assignors will testify in all legal proceedings, and do everything possible which the Assignees may consider desirable for aiding in securing, maintaining and enforcing proper patent and intellectual property protection for the Invention, including but not limited to executing all rightful oaths, assignments, powers of attorney and other papers, as necessary, and the Assignors irrevocably appoints the Assignees as the Assignors attorney in fact with power to execute on the Assignors behalf any and all documents necessary to carry out the terms of this Assignment. The Assignors covenant with the Assignees that the Assignors have made no other assignment, grant, mortgage, license or other agreement affecting the rights and property conveyed here, and that the Assignors have full right to convey his entire right, title and interest as expressed in this Assignment;

AND, the Assignors grant the following individuals the power to insert on this Assignment any further identification which may be necessary or desirable in order to comply with the rules of the United States Patent and Trademark Office for recordation of this document:
