ASSIGNMENT

Hsien-Hsin TUNG, residing at 1826 N Gate Road, Scotch Plains, NJ 07076, USA ("Assignor"), is owner of HIGH DRUG LOADING PHARMACEUTICAL COMPOSITIONS (the "Invention"), as described in the U.S. Patent Application signed by Assignor on November 3, 2017, U.S. Patent Application Serial Number: 15/803,372, filed November 3, 2017, (the "Patent Application").

AcrysPharm LLC, having an office and place of business at 1826 N Gate Road, Scotch Plains, NJ 07076, USA ("Assignee"), desires to acquire all rights in and to the Patent Application and the patent (and any reissues or extensions) that may be granted therefrom.

Therefore, for valuable consideration, the receipt of which is acknowledged, Assignor assigns to Assignee his right, title, and interest in the Invention and Patent Application (as well as such rights in any divisions, continuations in whole or part or substitute applications) to Assignee for the entire term of any and all United States and foreign patents, utility models, design registrations, and inventors' certificates granted for the Invention and claiming the benefit of the Patent Application, including any reissues or extensions.

Assignor authorizes the United States Patent and Trademark Office to issue any Patents resulting from the Patent Application to Assignee. The right, title and interest is to be held and enjoyed by Assignee and Assignee's successors and assigns as fully and exclusively as it would have been held and enjoyed by Assignor had this assignment not been made.

Assignor further agrees to: (a) cooperate with Assignee in the prosecution of the Application and foreign counterparts; (b) execute, verify, acknowledge and deliver all such further papers, including patent applications and assignments; and (c) perform such other acts as Assignee lawfully may request to obtain or maintain the patent for the invention in any and all countries.
