ASSIGNMENT

For good and valuable consideration, the receipt of which is hereby acknowledged, I the undersigned,

Gregg D. Scheller (hereinafter, "Assignor"), who, having created a certain invention for which an application for United States Letters Patent entitled:

STEERABLE LASER PROBE

for which the application for U.S. Letters Patent has been filed November 27, 2017, as Application Serial No. 15/822,992, Do hereby sell, assign and transfer to Katalyst Surgical, LLC, a Missouri limited liability company, (hereinafter, "Assignees"), their successors, assigns, and legal representatives, the full and exclusive right to said invention and said application and to any and all inventions described in said application for the United States, its territorial possessions and all foreign countries, and the entire right, title and interest in and to any and all Letters Patent which may be granted therefor in the United States, its territorial possessions and all foreign countries; and in and to any and all continuations-in-part, continuations, divisions, substitutes, reissues, extensions thereof, and all other applications for Letters Patent relating thereto which have been or shall be filed in the United States, its territorial possessions and/or any foreign countries, and all rights, together with all priority rights, under any of the international conventions, unions, agreements, acts, and treaties, including all future conventions, unions, agreements, acts, and treaties;

I authorize Assignees to apply for and receive Letters Patent for such protection in their own names, in the United States, its territorial possessions, and all foreign countries; and that, when requested to carry out in good faith the intent and purpose of this assignment, at the expense of said Assignees, but without charge to Assignees, their successors, assigns and legal representatives, the undersigned will execute all continuations-in-part, continuations, divisions, substitutes, reissues, and extensions thereof, execute all rightful oaths, assignments, powers of attorney and other papers, testify in any legal or quasi legal proceedings; communicate to said Assignees, their successors, assigns, and legal representatives all facts known to the undersigned relating to said invention and the history thereof; and generally do everything possible which said Assignees, their successors, assigns or legal representatives shall consider desirable for aiding in securing, maintaining and enforcing proper patent protection for said invention and for vesting title to said invention and all applications for patents on said invention in said Assignees, their successors, assigns and legal representatives; and

Covenant with said Assignees, their successors, assigns and legal representatives that no assignment, grant, mortgage, license or other agreement affecting the rights and property herein conveyed has been made to others by the undersigned, and that full right to convey the same as herein expressed is possessed by the undersigned. IN TESTIMONY WHEREOF, I have hereunto set my signature on November 27, 2017.

Signature of inventor: Gregg D. Scheller

Intellectual Property Assignment Agreement

**THIS AGREEMENT** is made this 12th day of September 2012 (the "Effective Date"), by and between Katalyst Surgical, LLC having a principal office at 754 Goddard Avenue, Chesterfield, MO 63005, hereinafter collectively referred to as the "Katalyst" and Matthew N. Zeid hereinafter referred to as "Employee."

In consideration of my employment with Katalyst, the sufficiency of which is hereby acknowledged, I hereby covenant and agree with Katalyst as follows:

Employee hereby assigns to Katalyst without any further consideration in addition to that provided for herein, Employee's entire right, title, and interest in and to each and every Subject Idea and Invention. Employee agrees to take all reasonable actions requested by Katalyst, at Katalyst's expense, to protect Katalyst's rights therein. Employee agrees to assist Katalyst, or its designee, at Katalyst's expense, in every proper way to secure Katalyst's rights in each and every Subject Idea and Invention and any copyrights, patents, mask work rights or other intellectual property rights relating thereto in any and all countries, including the disclosure to Katalyst of all pertinent information and data with respect thereto, the execution of all applications, specifications, oaths, assignments and all other instruments which Katalyst shall deem necessary in order to apply for and obtain such rights and in order to assign and convey to Katalyst, its successors, assigns, and nominees the sole and exclusive rights, title and interest in and to such Subject Ideas and Inventions, and any copyrights, patents, mask work rights or other intellectual property rights relating thereto. Employee further agrees that Employee's obligation to execute or cause to be executed, when it is in Employee's power to do so, any such instrument or papers shall continue indefinitely. If Katalyst is unable because of Employee's mental or physical incapacity or for any other reason to secure Employee's signature to apply for or to pursue any application of any United States or foreign patents or copyright registrations covering Subject Ideas and Inventions or original works of authorship assigned to Katalyst as above, then Employee hereby irrevocably designates and appoints Katalyst and its duly authorized officers and agents as Employee's agent and attorney in fact, to act for and in Employee's behalf and stead to execute and file any such applications and to do all other lawfully permitted acts to further the prosecution and issuance of letters patent or copyright registrations thereon with the same legal force and effect as if executed by Employee.

As used herein, "Subject Ideas and Inventions" includes, without limitation, any and all ideas, process, trademarks, service marks, inventions, designs, technologies, computer hardware or software, formulas, discoveries, patents, copyrights, copyrightable works, products, marketing and business ideas, and all improvements, extensions, know-how, data rights and claims related to the foregoing, whether or not patentable, which were and are developed or created which:

- (i) relate to Katalyst's current or contemplated business or activities;
- (ii) relate to any Katalyst technology or confidential information;
- (iii) relate to Katalyst's actual or demonstrably anticipated research and development;
- (iv) result from any of Employee's duties as an employee of Katalyst;
- (v) involve the use of Katalyst's equipment, supplies, facilities, trade secrets or intellectual property of any kind; or

Employee ID: 1016

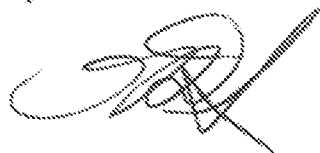

(vi) result from Employee's access to any Katalyst memoranda, notes, records, drawings, sketches, models research results, data, formulae, specifications, inventorship, processes, equipment or other materials owned by Katalyst.
