Title of Invention:                   **SWEAT SENSING DEVICE  
COMMUNICATION SECURITY AND  
COMPLIANCE**

Application No.                       **15/362,299, filed on November 28, 2016**

**ASSIGNMENT**

WHEREAS, I, **Jason Heikenfeld**, of **Cincinnati, OH**, am an original inventor of the invention disclosed in the above-identified application for a United States Letters Patent;

WHEREAS, University of Cincinnati, a University of the State of Ohio having a principal place of business at 2624 Clifton Avenue, Cincinnati, OH 45221, hereinafter referred to as "UC," is desirous of acquiring an interest in the invention and application and in any United States Letters Patent and Registrations which may be granted on the same;

For one dollar (\$1.00) and other good and valuable consideration to the inventor, the receipt of which is hereby acknowledged, I have assigned, and by these presents do assign to UC all right, title, and interest in and to the invention and application and to all foreign counterparts (including patent, utility model, and industrial designs), and in and to any Letters Patent and Registrations which may hereafter be granted on any patent application claiming priority from the same in the United States and all countries throughout the world, and to claim the priority from the application as provided by the Paris Convention. The right, title, and interest is to be held and enjoyed by UC and UC's successors and assigns as fully and exclusively as it would have been held and enjoyed by me had this Assignment not been made, for the full term of any Letters Patent and Registrations which may be granted thereon, or of any division, renewal, continuation in whole or in part, substitution, conversion, reissue, prolongation, or extension thereof.

I further agree that I will, without charge to me, but at UC's expense, (a) cooperate with UC in the prosecution of U.S. Patent applications and foreign counterparts on the invention and any improvements, (b) execute, verify, acknowledge, and deliver all such further papers, including patent applications and instruments of transfer, and (c) perform such other acts as UC lawfully may request to obtain or maintain Letters Patent and Registrations for the invention and improvements in any and all countries, and to vest title thereto in UC, or UC's successors and assigns. I waive any obligation of UC to file foreign counterparts on the invention or continue pursuit of prosecution of the invention and application and to all foreign counterparts, UC can in its sole discretion choose which countries to file foreign counterparts, unless I have previously informed UC in writing of any foreign counterparts I would like the option to pursue or prosecute.
