ASSIGNMENT

WHEREAS I, Alain Regard, am an inventor/co-inventor of an invention that is the subject of a U.S. provisional patent application titled **A DEVICE FOR DISPENSING AND APPLYING A LIQUID**, filed with the United States Patent and Trademark Office on _____, as application Serial No. _____ (hereinafter the "Application");

I hereby give permission to insert above the serial number and filing date for the Application when it is known.

WHEREAS REXAM HEALTHCARE LA VERPILLIERE SAS, a French corporation having a place of business at 20 avenue de la Gare, 38290 LA VERPILLIERE, France, wishes to acquire my entire interest in each and every invention that is the subject of the Application;

NOW, THEREFORE, in consideration of my employment, any agreements related thereto, or other good and valuable consideration, the receipt of which is hereby acknowledged, I hereby assign to REXAM HEALTHCARE LA VERPILLIERE SA, its successors and assigns (collectively "REXAM") my entire right, title and interest in, to and under the Application, including all priority rights for other countries arising therefrom, all inventions therein disclosed, and any and all present or future patent applications to such inventions that may be filed in any country, inclusive of, but not limited to, continuations, continuations-in-part, divisions, substitutions, reexaminations, reissues, international applications filed under the PCT, United States patent applications, subsequent United States patent applications claiming some or all of this invention, certificates of addition, utility models, petty patents, as well as all other intellectual property related to the Application, inclusive of, but not limited to, supplementary protection certificates; and any related patent term extensions which may be granted for Letters Patent with respect thereto; all of the above to be held and enjoyed by REXAM, its successors and assigns, for their own use and enjoyment to the full end of the term or terms for which such Letters Patent and related intellectual property rights may be granted, as fully and entirely as the same would have been held and enjoyed by me had this Assignment and sale to REXAM not been made.

For myself and for my heirs, successors and legal representatives, I covenant that no assignment, sale, agreement or encumbrance has been or will be made or entered into which would conflict with this Assignment.

For myself and for my heirs, successors and legal representatives, I further covenant and agree with REXAM that upon request I and they will, without further consideration than that now paid, but at the expense of REXAM or its successors or assigns: (i) execute original, provisional, substitute, continuation, divisional, continuation-in-part, reexamined, or reissued applications, amended specifications, or rightful declarations or oaths for such application; (ii) communicate to REXAM or its successors or assigns any facts known to me or them relating to such inventions or the history thereof; (iii) execute preliminary statements and testify in any interference proceedings, litigation discovery proceedings and depositions, oppositions, cancellation proceedings, priority contests, public use proceedings, administrative agency proceedings, litigation and other court actions and the like; (iv) execute and deliver any application papers, affidavits, declarations, assignments, or other instruments; and (v) do all other acts which, in the opinion of counsel for REXAM or its

-2-

successors or assigns, may be necessary or desirable to secure the grant of Letters Patent and related intellectual property to REXAM or its nominees, successors or assigns in the United States and in all other countries where REXAM or its successors or assigns may desire to have such inventions, or any of them, patented, with specifications and claims in such form as shall be approved by counsel for REXAM its successors or assigns and to vest and confirm in REXAM or its nominees, successors or assigns the full and complete legal and equitable title to all such Letters Patent and related intellectual property.

I have executed this assignment on the date indicated below.

04th November 2013
Date
